THE SCHOOLS GUIDE · VERSION 1.1

Homework Tracker and Learning GPS

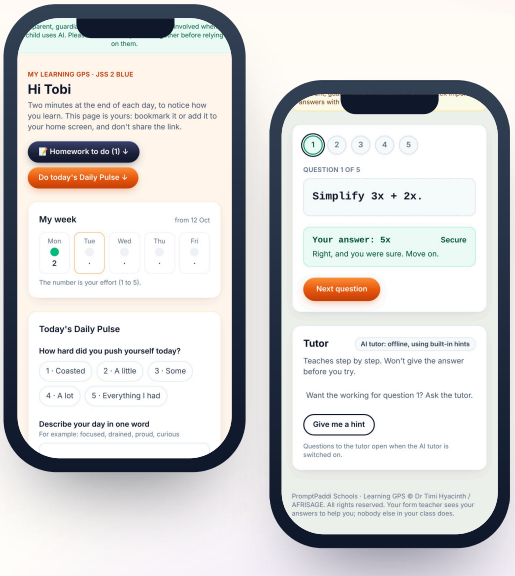

Homework your teachers set in minutes and that is marked the moment pupils answer, and a Monday list of every pupil who needs a teacher. Step by step, for proprietors, heads, teachers and parents.

Set in minutes, marked at once
No more marking piles: short answers and multiple choice are marked as pupils answer.

Know who really understands
Every answer is paired with whether the pupil was sure.

A Monday list of who needs you
Learning GPS: two minutes a day, and nobody slips through.

Progress every parent can see
Results, reports with your logo, and each family's free Paddi Dash.

Scan: Homework Tracker

October 2026 · © PromptPaddi Limited. All rights reserved. PromptPaddi Junior, Homework Tracker and ASEF Learning GPS are proprietary. Learning GPS is designed with the ASEF framework. No AI marks pupils' work in Homework Tracker unless a school adds Paddi, and no AI is used on pupils in Learning GPS.

What is in this guide

Tap any line to jump to it. Every orange button in this guide is a button you tap on the website, and every QR code opens the page it talks about.

✔ Quick start and where to find things 28

Who does what

🏫 **The proprietor or head**
Buys it, adds the classes and pupils, and gives each teacher their class link. Sees progress across the school.

👩🏽‍🏫 **Each class teacher**
Sets homework from their class page, marks written answers, prints reports. With Learning GPS: reads the Monday list.

🧒🏽 **Each pupil**
Opens their own private link (no app, no password), does their homework, and with Learning GPS, a two-minute Daily Pulse.

👪 **Parents**
See their child's results, reports and messages from the teacher, on their free Paddi Dash.

🛡️ **Your safeguarding lead**
Hears at once, by email, when a pupil asks to talk to someone (with Learning GPS).

Any phone will do
Pupils use any phone, tablet or computer with a browser: a parent's phone at home is fine. There is no app to install and nothing to sign in to: each pupil's link and QR code is their key.

THE BIG PICTURE

How it all fits together

Homework Tracker is the homework loop. Learning GPS adds the wellbeing loop beside it. Buy Homework Tracker on its own, Learning GPS on its own, or both in one order.

promptpaddijunior.com/schools

Homework Tracker: the homework loop

The teacher sets it
In minutes, from their class page, with a free AI helper if they like.

→

Pupils answer
On any phone, from their own private link or QR code.

→

Marked at once
Short answers and multiple choice. Written answers wait for the teacher.

→

Results and reports
The class mark book, WAEC grades and printable reports.

→

Parents see it
On their child's free Paddi Dash.

Learning GPS: the wellbeing loop

Daily Pulse
Two minutes at the end of each school day.

→

Friday Reflection
Ten minutes looking back at the week, and ahead.

→

The Monday list
Each form teacher sees who needs them, urgent ones first.

→

A quiet word
The teacher speaks to each pupil, then records what they did.

→

Safeguarding
If a pupil asks to talk, your lead is emailed at once.

Why schools choose it

No more marking piles
Short answers and multiple choice are marked the moment a pupil answers.

"Confident but wrong"
Each answer is paired with whether the pupil was sure, so you see the misunderstandings to reteach first.

Free AI helper for teachers
Draft questions with Gemini, ChatGPT or Claude, free. Paddi marks written answers only if your school adds it.

Reports with your logo
A mark book, WAEC grades and progress reports, ready to print or send.

Nobody slips through
Spot struggling, unhappy or quiet pupils before it shows in their results.

Built for safeguarding
Designed with Dr Timi Hyacinth's ASEF framework. Only the form teacher sees what pupils write.

PRICES

₦ What it costs

Paid once, for 1, 2 or 3 terms at a time (a term is 120 days). Nothing renews by itself: we email you two weeks before it ends.

Every price: /pricing

HOMEWORK TRACKER

~~₦~~3,000 per pupil, a term

£10 / $15 per pupil, a term, abroad

At least 10 pupil places. For a teacher, tutor or parent with a class, or a whole school. **With Learning GPS: ₦4,000 a pupil for both** (£12 / $18 abroad).

✨ **With Paddi: ₦5,000 a pupil, a term** (£15 / $20). Paddi drafts each homework for you to check, marks written answers too, and shows learners the correct answers.

📚 **Study Coach for your learners: ₦10,000 each, a term** (£12 / $15), with Homework Tracker or Learning GPS (half price, at least 10): AI courses for learners and parents, the study hub, practice tests and study guides.

Learning GPS for schools · a term

WHAT YOU BUY	NAIRA	ABROAD
Learning GPS on its own, each pupil	**₦1,500**	£3 / $5
Homework Tracker and Learning GPS together, each pupil	**₦4,000**	£12 / $18
More than 5,000 pupils, or a group of schools		Ask us for a quote

Add it to Homework Tracker in the same order (₦500 off Learning GPS for each pupil), or buy it on its own. Work out your price at promptpaddijunior.com/for-schools.

A worked example

A school with JSS 1A (32 pupils) and JSS 1B (30 pupils) buys Homework Tracker for 62 pupils: 62 × ~~₦~~3,000 = **₦186,000**. Adding Learning GPS for the same 62 pupils makes it ₦4,000 a pupil: 62 × ₦4,000 = **₦248,000**. One payment covers the whole term.

📡 Paddi Radar for schools: ₦25,000 a term (£50 / $65)

100 scans of reports, classwork or homework, for the whole school: admissions checks on applicants' past reports, and profiles on pupils who need help. The first scan is free. See Part 4.

PRICES

₦ For families

Everything parents can add for their own child. Each one switches on its part of the child's free Paddi Dash.

Free Paddi Dash: promptpaddijunior.com

For each child, at home

PRODUCT	WHAT YOU GET	NAIRA	ABROAD
Paddi Dash	One dashboard for everything the child learns, with their progress.		**Free**
PromptPaddi Tutor Study Coach free with Exam Boost	Each child, a month (1 to 12 months)	**₦25,000**	£35 / $45
Exam Boost Study Coach free with the Tutor	Each subject, a month, for any exam: choose only the subjects that worry you, up to 9 (1 to 12 months)	**₦6,000**	£10 / $15
Maths Clinic, English Lab or Science Lab each one, a term	Primary	**₦6,000**	£10 / $12
	JSS (with Primary)	**₦8,000**	£12 / $15
	SS and JAMB (with JSS and Primary)	**₦12,000**	£15 / $18
Study Coach free with the Tutor and Exam Boost together	One child, 6 months	**₦35,000**	£25 / $32
	One child, a year	**₦60,000**	£45 / $59
	Family (up to 4 children, every stage), a year	**₦120,000**	£79 / $99
My Learning GPS at home	Each child, a term	**₦1,500**	£3 / $5
Homeschooler bundle	Each child, a month: Paddi sets and marks homework every week, with the Tutor, Study Coach and Learning GPS	**₦35,000**	£49 / $62
Exam Boost for homeschoolers	Added to the bundle: every subject of the exam, a month	**₦18,000**	£35 / $40
Give it as a gift	Any of these, for a child anywhere		The same prices

Nothing renews by itself. Every part has a free sample to try first: a free gap check in Maths Clinic and English Lab, one Science Lab practical, a free Exam Boost paper, and three prompts in every subject. Pay in naira by card, bank app or USSD (Paystack), or by bank transfer; abroad, in pounds or dollars by card (Stripe). Prices at the time of writing (October 2026). The current prices are always at promptpaddijunior.com/pricing.

PART 1 · HOMEWORK TRACKER

1 Buy it for your school

About five minutes. You don't need an account first: we make it when you pay.

Scan to buy: /schools

1 Open the buy box

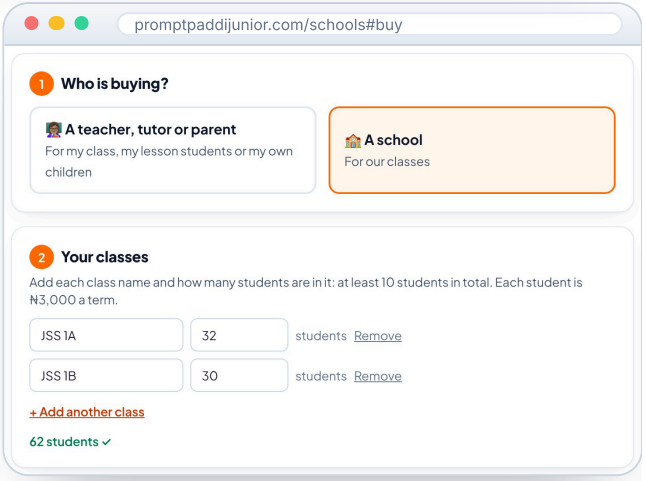

Go to promptpaddijunior.com/schools and tap **Get Homework Tracker**.

2 Who is buying?

Tap **🏫 A school**. (A teacher, tutor or parent with one class taps **👩🏾‍🏫 A teacher, tutor or parent**.)

3 Your classes

Type each class's name and how many pupils are in it. Tap **+ Add another class** for the next one. You need at least 10 pupils in total.

Steps 2 and 3: who is buying, and your classes.

4 Add Learning GPS?

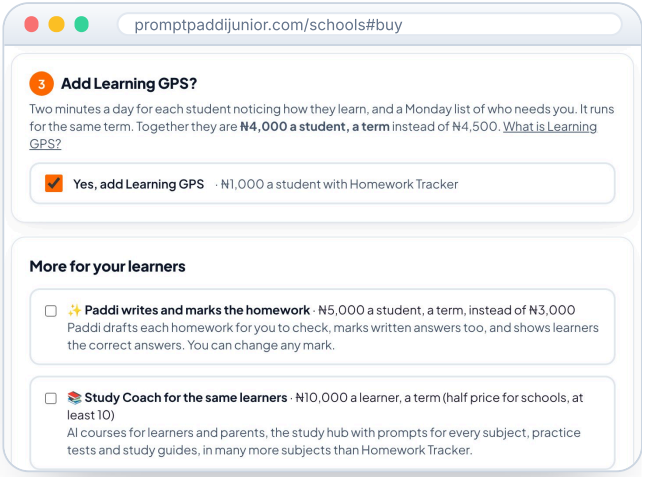

Tick **Yes, add Learning GPS** to have it for the same terms, in the same payment: ~~₦4,000~~ a pupil for both. (You can add it later.) Under **More for your learners** you can also add Paddi, who writes and marks the homework, or Study Coach.

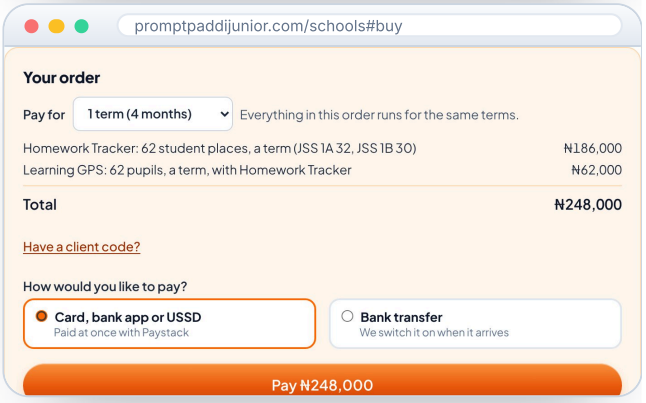

5 Your details

Your name, your school's name, your email and, if you like, your WhatsApp number.

6 Pay

Under **Your order**, choose **Pay for** 1, 2 or 3 terms (4, 8 or 12 months): everything in the order runs for the same terms. Check the total, choose **Card, bank app or USSD** or **Bank transfer**, and tap **Pay ₦248,000** (your total).

Steps 4 to 6: Learning GPS and more, your details, your order.

After you pay

7 **Paid by card, bank app or USSD?**

The thank-you page says **“Thank you! It’s all switched on”**. Tap **Set your password** straight away.

8 **Paying by bank transfer?**

The page shows the amount, our bank, account name, account number and your **reference**. Make the transfer with that reference, then tap **I’ve made the transfer**. Nothing is switched on until the money arrives; we email you as soon as it does.

9 **Check your email**

We send **“Your Homework Tracker order is confirmed”** with a **Set your password** link. The link works once, for 7 days. After that, use **Forgot password?** on the sign-in page.

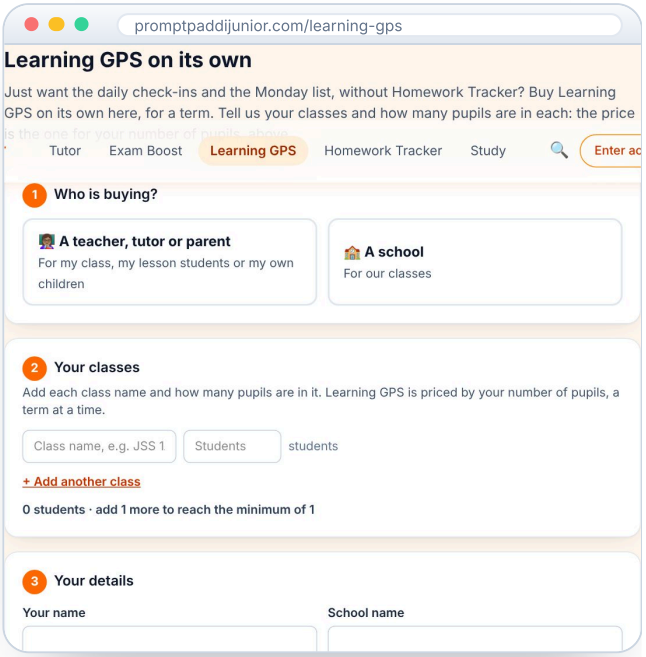

Already have an account?

Sign in at promptpaddijunior.com/school/login. On your dashboard, under **Homework Tracker**, open **Renew, or change your number of places** to add pupils or renew.

Learning GPS on its own

Want only Learning GPS? Go to promptpaddijunior.com/learning-gps and scroll to **Learning GPS on its own**. It has the same steps: who is buying, your classes and pupils, your details, pay. There is no minimum: one class is fine.

Scan: Learning GPS on its own

Learning GPS on its own.

PART 1 · HOMEWORK TRACKER

2 Set up your school

Once, at the start of term: add your pupils, give each teacher their class link, print the pupils' link slips.

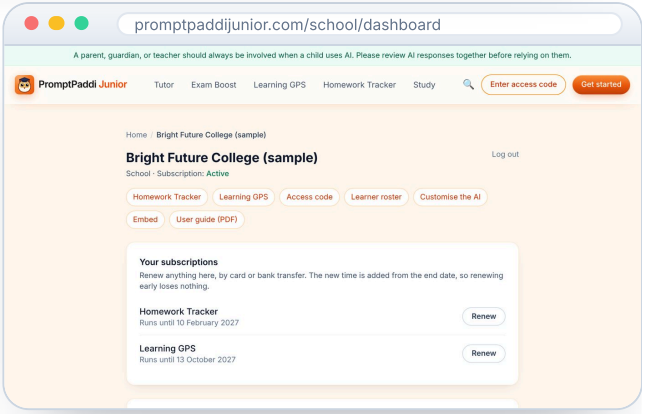

Sign in: /school/login

1 Sign in

At promptpaddijunior.com/school/login (**School admin login**), type your email and password and tap **Sign in**.

2 Find your way around

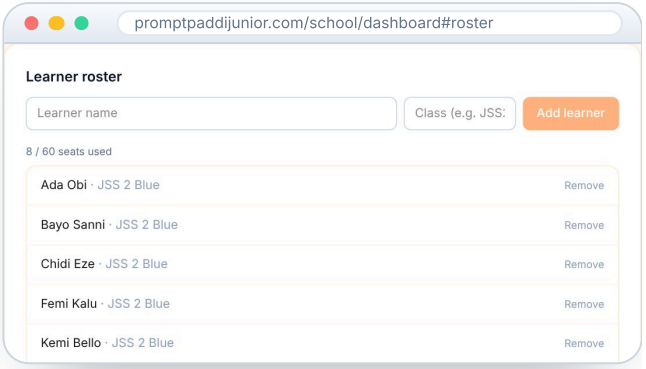

The buttons at the top jump to each part: **Homework Tracker** **Learning GPS** **Learner roster** and more. **Your subscriptions** shows what you have and until when.

Your school dashboard.

3 Add your pupils

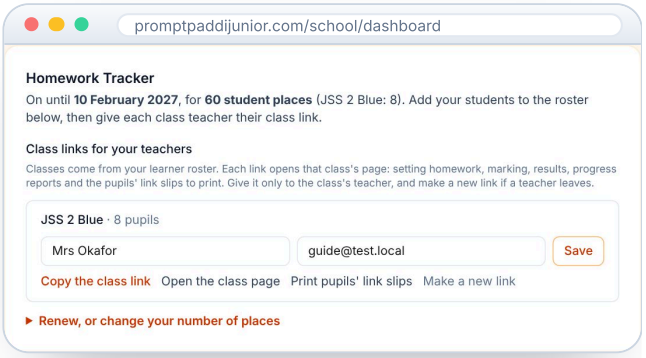

Scroll to **Learner roster**. Type a pupil's name and their class exactly as you want it shown (for example **JSS 2 Blue**), and tap **Add learner**. Repeat for each pupil. The counter shows how many of your places are used.

The learner roster.

4 Give each teacher their class link

Each class from your roster appears under **Class links for your teachers** (in the Homework Tracker part; with Learning GPS, in the Learning GPS part). Type the teacher's name and email and tap **Make the class link**. Then tap **Copy the class link** and send it to that teacher only, by email or WhatsApp.

A class link for each teacher.

The class link is the teacher's key

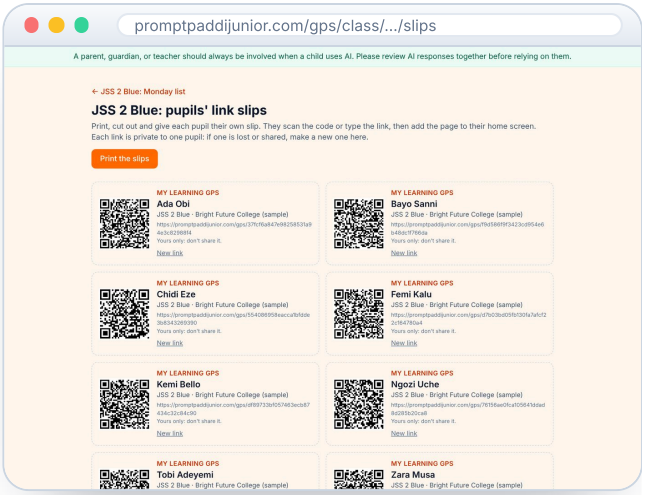

It opens their class page with no password, so they can bookmark it. If a teacher leaves, tap **Make a new link**: the old one stops working at once.

5 Print the pupils' link slips

Tap **Print pupils' link slips** beside a class (teachers find it on their class page too), then **Print the slips**. Each slip has the pupil's name, their private link and a QR code, and says **"Yours only: don't share it."**

6 Hand them out

Pupils scan their QR code with any phone camera and add the page to the home screen. A lost slip? Tap **New link** on that pupil's slip and print it again: the old link stops working.

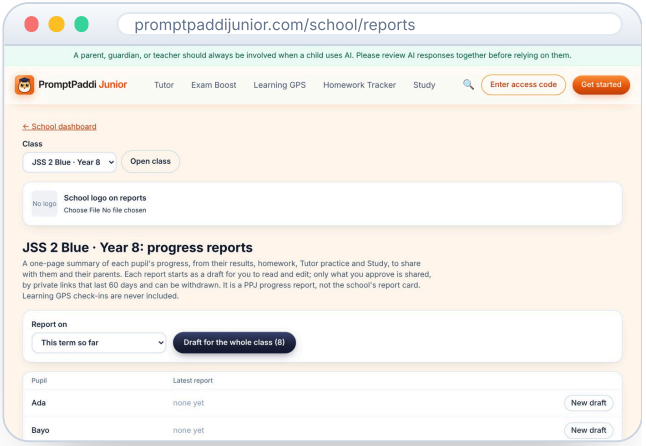

Pupils' link slips, ready to print and cut.

7 Put your logo on reports

Open promptpaddijunior.com/school/reports. Under **School logo on reports**, choose your logo file. Every progress report then carries it.

8 Choose your grades

On the dashboard, under **Curriculum, grading and subjects**, pick your **Grade scale** (for example **WAEC / NECO (A1 to F9)**) and your subjects, and tap **Save settings**.

Your logo, on every report.

A term at a glance

WEEK 1	WEEK 1 TO 2	EVERY WEEK	END OF TERM
Buy, add your pupils, make each class link, print the link slips.	Teachers set the first homework. Pupils add their page to their home screen.	Homework set and marked. With Learning GPS: Daily Pulses, Friday Reflections, Monday lists.	Results in the mark book, progress reports to parents, renew for next term.

Telling parents

Send parents a short note with the link slip: what Homework Tracker is, that the link is their child's own, and that they can see progress on their free Paddi Dash (part 9).

PART 1 · HOMEWORK TRACKER

3 Set homework

For each class teacher: from your class page, in a few minutes. Up to 20 questions a homework.

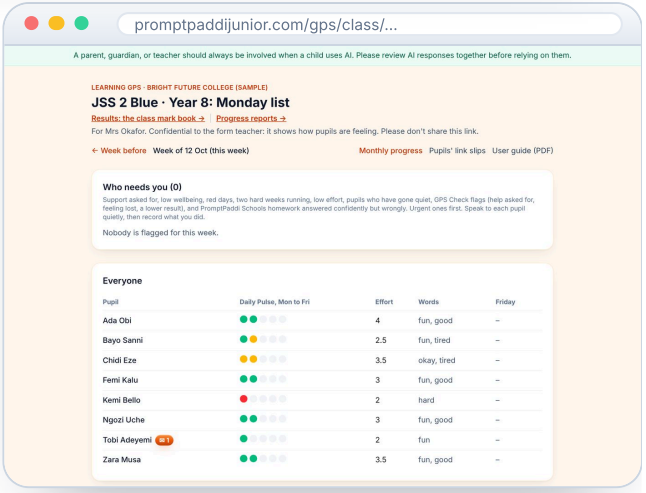

About Homework Tracker

1 Open your class page

Tap the class link your school sent you. Bookmark it. At the top: **Results**, **Progress reports**, **Pupils' link slips**; below, **Who needs you**, **Everyone** and your class's homework.

2 Start a homework

Scroll to **PromptPaddi Schools homework** and tap + Set homework. Type a **Title**, choose the **Subject**, type the **Topic** and, if you like, the **Due** date.

A class page: everything for one class.

3 Write the questions, one a line

In the **Questions** box. Each line is a question, then | and the answer:

Three kinds of question

KIND	TYPE IT LIKE THIS	MARKED
Short answer	`What is 1/2 + 1/4? | 3/4 | 0.75 | hint: make the bottoms the same` Other accepted answers after more |; a hint after **hint:**	At once
Multiple choice	`Which is biggest? | 2/3 | *3/4 | 1/2` A star * before the right option	At once
Written	`Explain how you add 2/5 and 1/3. | teacher marks | common denominator 15` After **teacher marks**, your own marking guide	By you

4 Spelling

Small spelling slips are accepted. Tick Spelling counts when spelling is what you are testing.

5 Set it

Type your name under **Set by** and tap Set it for the class. It appears on every pupil's page straight away.

✨ Draft questions with your own AI, free

Short of time? Open **Draft homework questions with your own AI (free)** under the form.

1 **Choose**

How many questions, and the **Kind**: *A mix*, *Short answers*, *Multiple choice* or *Written (you mark)*.

2 **Copy and open your AI**

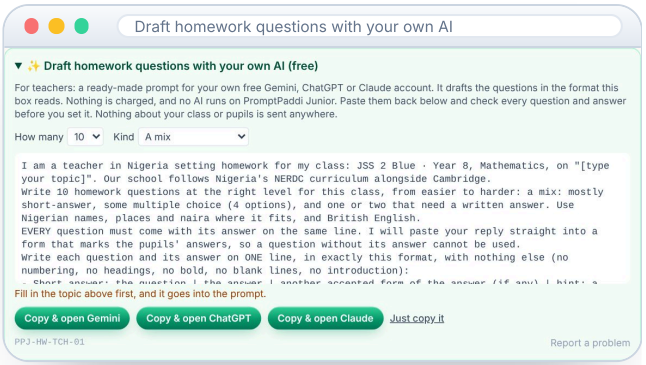

Tap **Copy & open Gemini** (or ChatGPT or Claude). Paste into the chat. It writes the questions in exactly the format above, for your class, subject and topic.

3 **Check, then paste back**

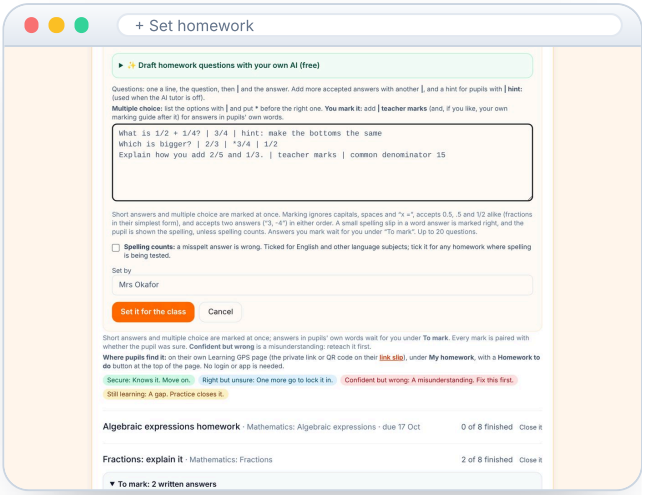

Read every question and answer, correct anything, and paste them into the **Questions** box.

You stay in charge of marking

The free AI helper only helps *you* write questions, in your own account. Pupils' answers are marked against *your* answers, or by you, or, if your school adds Paddi, by Paddi, and you can change any mark.

The free AI helper.

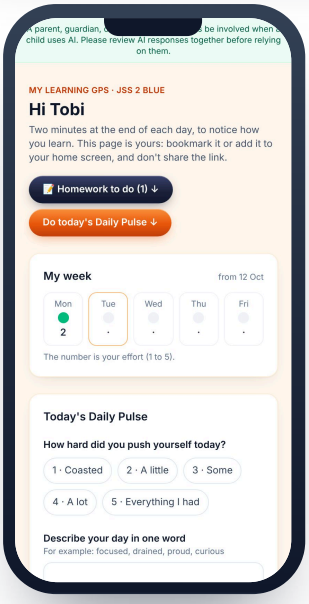

The questions, ready to set.

PART 1 · HOMEWORK TRACKER

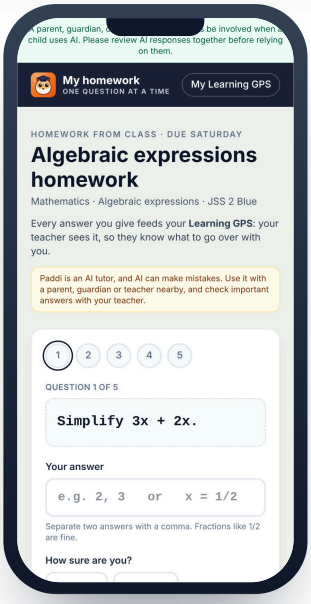

4 How pupils do their homework

On any phone, one question at a time. Show your class this page in the first week.

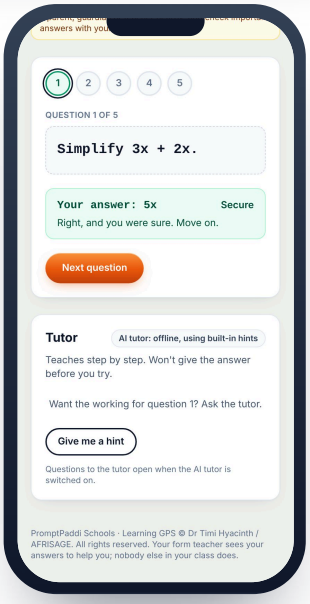

About Homework Tracker

1. Their own page: tap 📝 **Homework to do**.

2. One question at a time.

3. Marked at once.

1 Open their page

Scan the QR code on their link slip (or tap their link). It says **Hi Tobi**. Tap 📝 **Homework to do**, then **Start**.

2 Answer, and say how sure

Type the answer (or tap an option), choose **I'm sure** or **Not sure**, and tap **Check answer**. Written answers: **Send to my teacher**. Stuck? **Give me a hint** shows your hint.

3 See how they did

After the last question, **See how I did**. Each answer shows one of these:

Secure	Right but unsure	Confident but wrong	Still learning	With your teacher
Right, and sure.	Right, but guessed.	A misunderstanding: reteach first.	Wrong, and knew it.	A written answer, waiting.

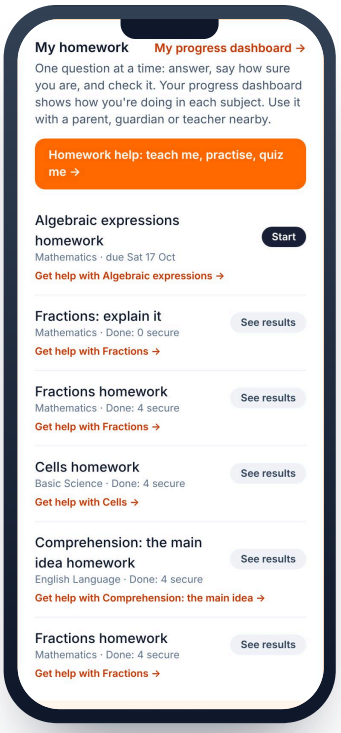

Their homework, and their progress

Under **My homework**, each homework shows **Start**, **Carry on** or **See results**, with the subject, the due date and how they did. Homework stays there, so pupils can look back at what they got right and what they are still learning.

My progress dashboard shows their progress in each subject, the same as their parents and teacher see.

Doing it on a parent's phone?

That's fine. The link works on any phone; a parent can keep it on their home screen for each child.

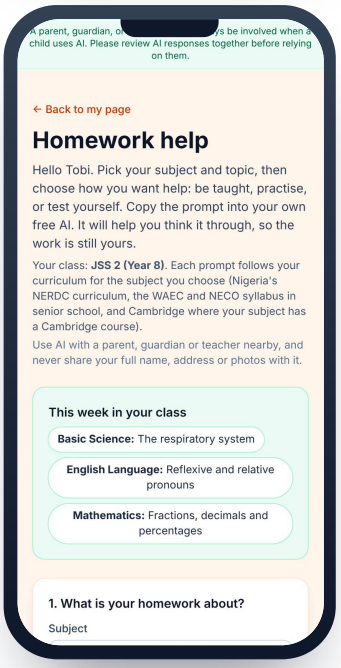

My homework.

Homework help, for every topic

Tap **Homework help: teach me, practise, quiz me** (or **Get help with** a topic beside a homework). Pupils pick the subject and topic, and copy a ready-made prompt into their own free AI, which teaches step by step without giving the answers away. **This week in your class** lists your topics.

Add it to the home screen

Pupils keep their page like an app: in the browser's menu, **Add to Home Screen**. No app store, no password.

Homework help.

PART 1 · HOMEWORK TRACKER

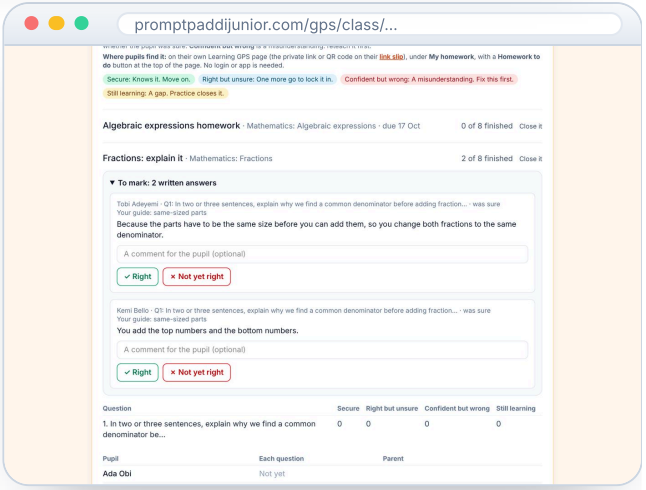

5 Marking, results and reports

Most marking is done for you. Here is what is left, and what you get from it.

Sign in: /school/login

1 See each homework's results

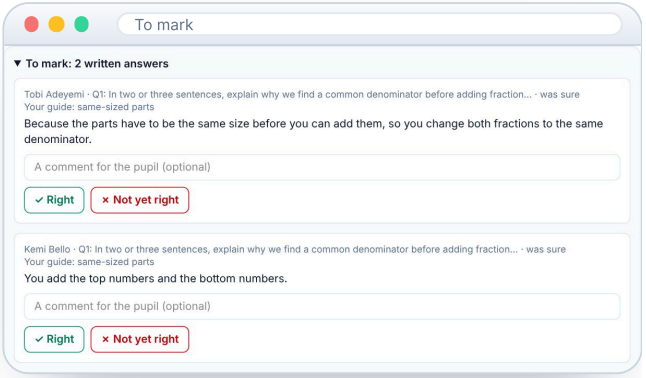

On your class page, each homework shows **N of N finished** and a table of every question: who was secure, unsure, confident but wrong. Beside each pupil, **Send on WhatsApp** sends a ready-written message to their parent. **Close it** stops new answers.

Results for each homework, question by question.

2 Mark the written answers

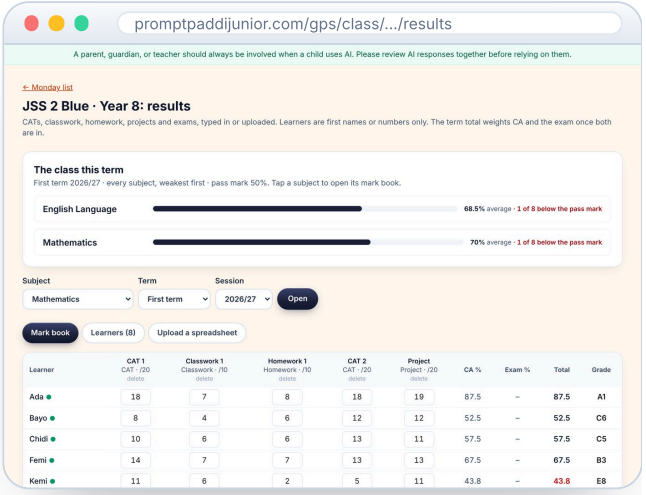

Open **To mark: N written answers**. Read each answer, type a comment if you like, and tap **✓ Right** or **× Not yet right**. The pupil sees **"Your teacher says: ..."**.

Written answers waiting for you.

3 The class mark book

Tap **Results: the class mark book**. Choose the **Subject**, **Term** and **Session** and tap **Open**. Homework scores are there already; **Add an assessment** for tests and exams, or **Upload a spreadsheet**. You see CA %, Exam %, Total and Grade, in your grade scale. **Download as a spreadsheet** any time.

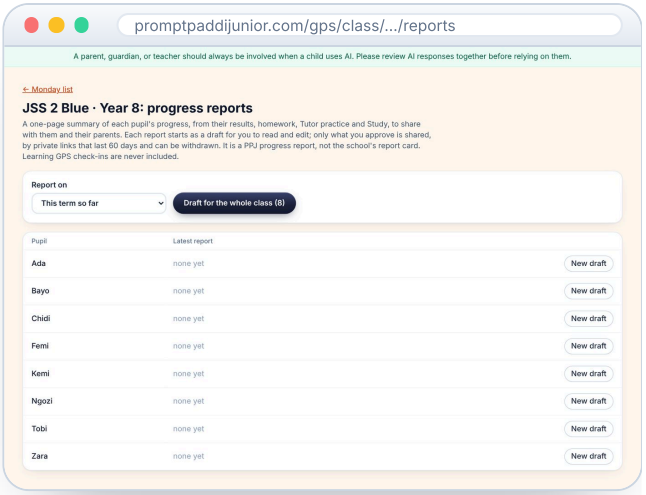

The mark book, with WAEC grades.

4 Progress reports

Tap **Progress reports**. Choose what to **Report on** (this term so far, this half term, or chosen dates) and tap **Draft for the whole class**. Open each pupil's draft, add your comment, choose the **Sections to include**, and tap **Approve and share**.

5 Send or print

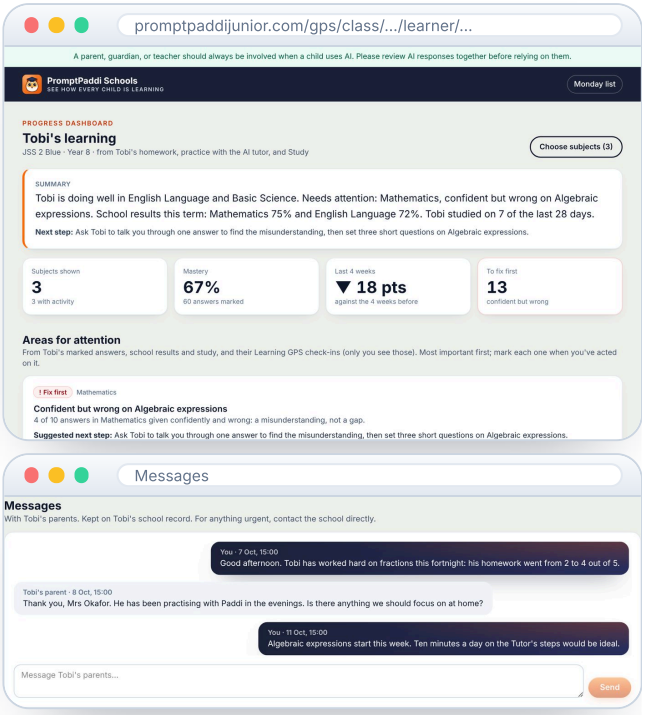

Each approved report has a **Parent copy** and a **Learner copy**: **Copy** the link, send it on **WhatsApp**, or **Open to print or save as PDF**. Changed your mind? **Withdraw**.

Progress reports for the whole class.

6 One pupil's dashboard, and messages

Tap a pupil's name to see their progress in every subject. Under **Messages**, write to the pupil's parents and tap **Send**. They are emailed a link to read it and reply; the message stays on both dashboards.

A pupil's dashboard, and messages with their parents.

For the head: progress across the school

On your dashboard, **Results: every class's mark book** and **Progress reports** open any class. With Learning GPS, **Progress across the school** shows each class, the subjects that need most help, and the classes most in need first (part 7).

PART 2 · LEARNING GPS

6 Add Learning GPS

Know how every pupil is learning and feeling, and who needs a teacher, every week. By Dr Timi Hyacinth, with the ASEF framework.

Scan: /learning-gps

Three ways to get it

1 · With Homework Tracker

Tick **Yes, add Learning GPS** in the Homework Tracker buy box. One order, one payment, the same term.

2 · On its own

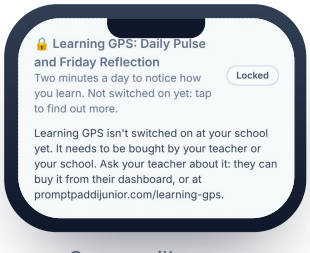

At /learning-gps, **Learning GPS on its own**: who is buying, your classes, your details, pay.

3 · From your dashboard

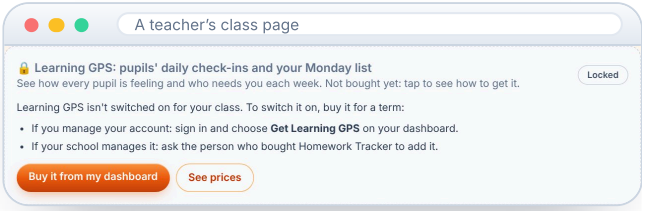

Already have an account? Tap **Get Learning GPS** in the Learning GPS part of your dashboard.

Not bought yet? It shows, locked

Schools with Homework Tracker but not Learning GPS still see it, locked, so teachers and pupils know it is there. Tapping it explains how to get it: teachers see **Buy it from my dashboard** and **See prices**; pupils are asked to tell their teacher.

On a pupil's page.

On a teacher's class page.

Set it up, once

1 Who hears at once

Under **1. Who hears at once**, type your safeguarding lead's name and email and tap **Save**. Usually your safeguarding lead or school counsellor.

2 The Friday Reflection and the GPS Check

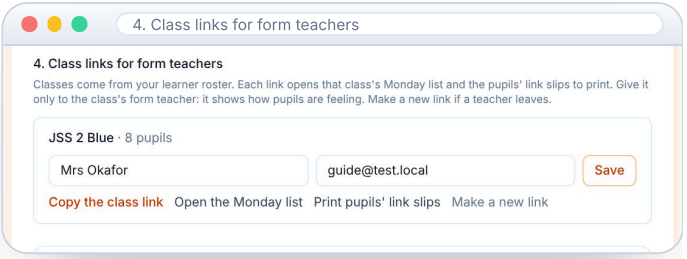

Leave **2. The Friday Reflection** and **3. The GPS Check** ticked. Tip: start with the Daily Pulse alone for the first two weeks, then switch on the Friday Reflection.

3 Each form teacher's link

Under **4. Class links for form teachers**, type each form teacher's name and email (for urgent flags) and tap **Make the class link**. Then **Copy the class link** and send it to them.

1 to 3: who hears, and what is open.

4: each form teacher's link.

Start gently

Run the Daily Pulse on its own for two weeks so pupils build the habit, then open the Friday Reflection. Tell pupils that only their form teacher reads what they write.

A week with Learning GPS

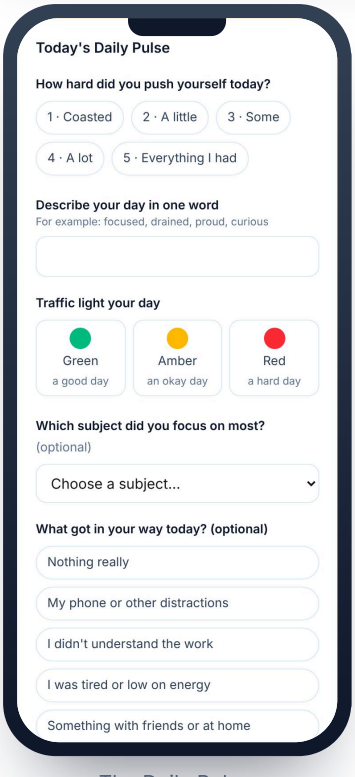

DAY	PUPILS	THE FORM TEACHER
Monday	Daily Pulse, two minutes after school	Reads the Monday list (we email it too), speaks to each pupil named, records what they did
Tuesday, Wednesday	Daily Pulse	Follows up anyone from Monday's list
Thursday	Daily Pulse. The Friday Reflection opens	Nothing extra
Friday	Daily Pulse and the Friday Reflection, ten minutes	If a pupil asks to talk, or rates their week 1, you and your safeguarding lead are emailed at once
Weekend	The Friday Reflection stays open	The Monday list builds itself
Each topic or test	A GPS Check: plan, then record the result	GPS Check flags show on the Monday list

PART 2 · LEARNING GPS

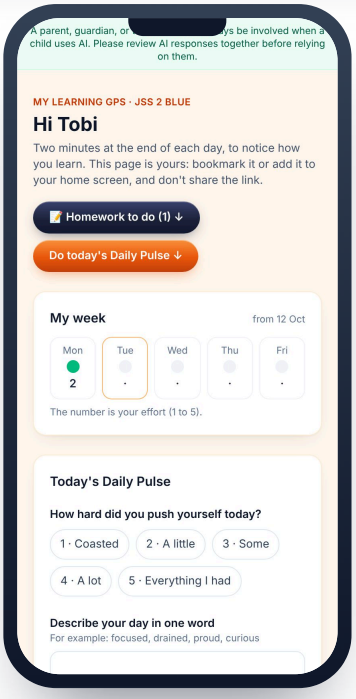

7 Learning GPS every week

Two minutes a day for pupils. Ten minutes on Monday for each form teacher.

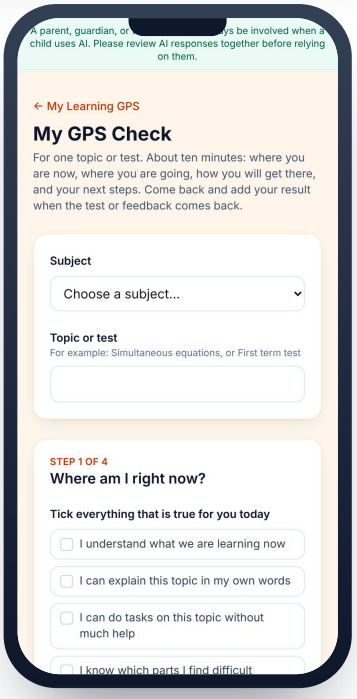

Scan: /learning-gps

The Daily Pulse.

Their page: today's Pulse, one tap.

A GPS Check.

⏱️ Every school day: the Daily Pulse

How hard did I push myself? My day in one word. A traffic light (green, amber, red). Which subject, and what got in my way. Then **Save today's Pulse**.

🗓️ Fridays: the Friday Reflection

Opens on Thursday, open over the weekend. My biggest win, the hardest thing, one thing I will do differently, how my week was (1 Struggling to 5 Thriving), and **Do you need anything from your teacher?**

🧭 Each topic or test: the GPS Check

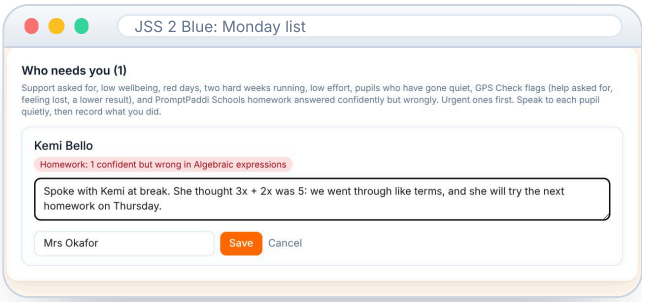

Where am I right now? Where am I going? How do I get there? My next steps. Then, when the result comes back, **Save my result**.

📋 Every Monday: the form teacher's list

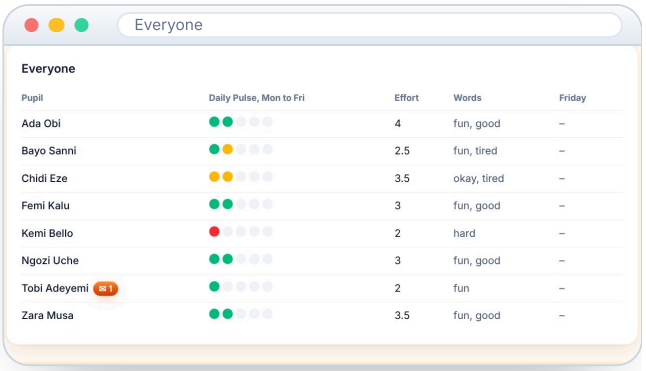

1. **Open your Monday list**
   Your class link opens it. We also email you each Monday: **"N pupils need you this week"**.

2. **Read who needs you, urgent ones first**
   Who needs you names each pupil and why: asked to talk to someone, rated their week 1 (struggling), a hard week two weeks running, red days, low effort, gone quiet, asked for help, or homework answered confidently but wrongly.

3. **Speak to each pupil, quietly**
   Then tap **Record what you did**, write a line (for example, *spoke with her at break*), add your name and tap Save.

Who needs Mrs Okafor this week.

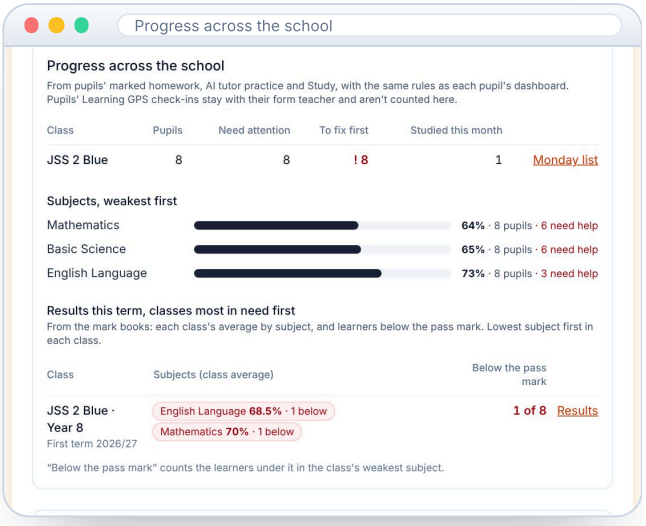

Everyone: the week at a glance.

🛡️ Safeguarding

Only the form teacher sees what pupils write. If a pupil answers **"I'd like to talk to someone about how I'm feeling"**, or rates their week **1 (struggling)**, the form teacher and your safeguarding lead are emailed at once: **"Learning GPS: a pupil in JSS 2 Blue needs you"**. The pupil is told their form teacher will speak to them soon. Learning GPS supports, and never replaces, your school's safeguarding procedures.

For the head: progress across the school

On your dashboard's Learning GPS part: **This week's Monday lists** for every class, **Progress across the school** (each class, how many need attention), **Subjects, weakest first**, and **Results this term, classes most in need first**. **Monthly progress** adds a monthly check-in and record for each pupil.

The whole school, weakest first.

PART 3 · PADDI DASH AND FAMILIES

8 Paddi Dash and progress

Every pupil's marked homework and results feed one picture: the class for the teacher, the whole school for the head, and each child for their family.

Paddi Dash: /dash

Paddi Dash is a free dashboard for everything a child learns, with no card. Each child gets their own dash on a private link, in a look made for their age. Each product switches on its part, like a plane's cockpit: your school's Homework Tracker is the **Pre-flight checklist** and Learning GPS is **Ground control**.

👩🏾‍🏫 Teachers
Who needs you, and the class results.

🏫 The head
Progress across the school, weakest first.

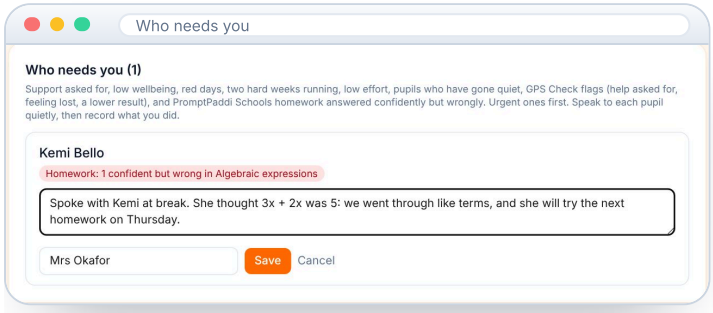

👪 Parents
Their child's progress, in plain words.

The same rules for everyone
Mastery comes from every marked answer. Answers given confidently but wrong come first: they are the misunderstandings to put right.

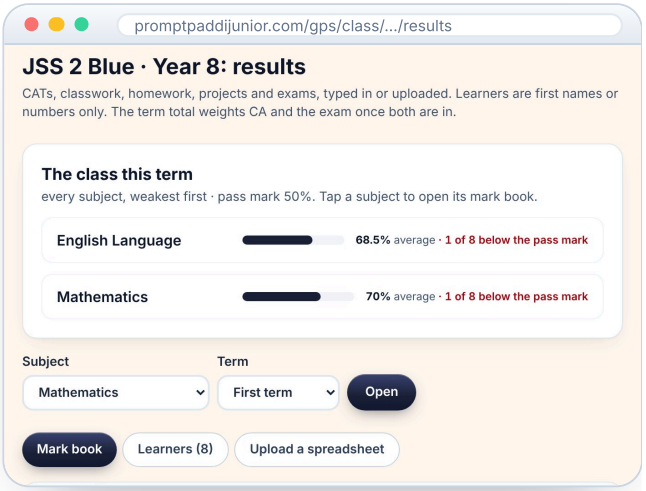

A pupil's Paddi Dash (a sample).

What a teacher sees

Who needs you, with a note of what you did.

Who needs you names each pupil and why, urgent ones first: for example, homework answered confidently but wrongly. Speak to them, then record what you did.

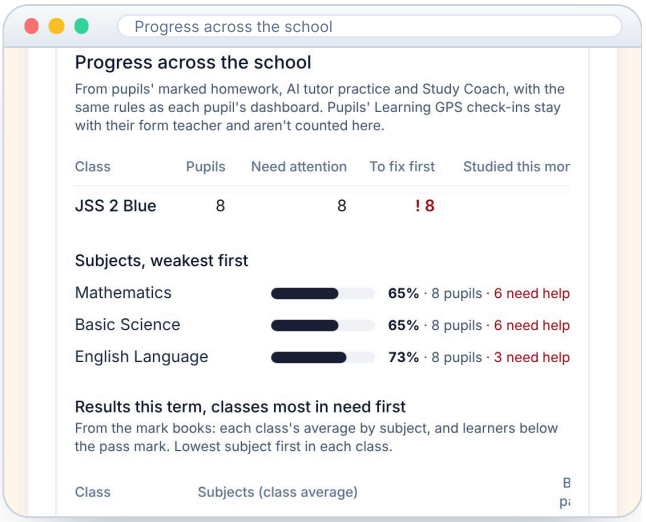

The class this term: every subject, weakest first, and who is below the pass mark.

What the head sees

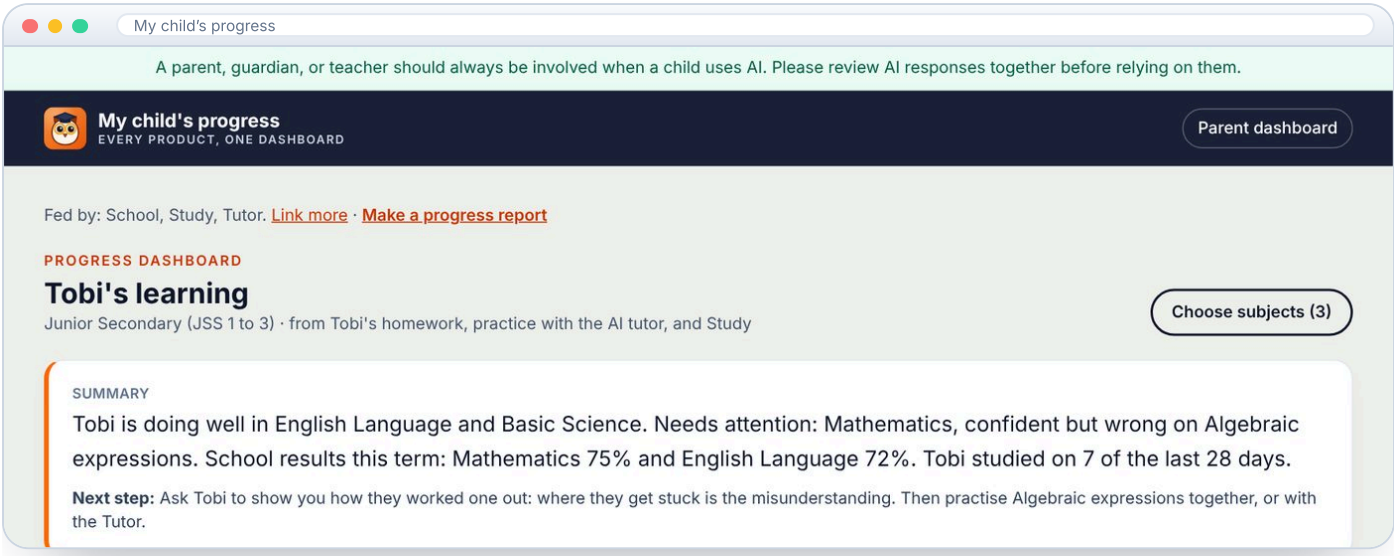

On your school dashboard, **Progress across the school** shows each class: how many pupils need attention and how many have something to fix first. Below it, **Subjects, weakest first** and **Results this term, classes most in need first**, from every class's mark book.

It counts marked homework, practice with the AI tutor and Study Coach. What pupils write in Learning GPS stays with their form teacher and is not counted here.

The whole school, weakest first.

What parents see

Tobi's progress dashboard, as his parents see it.

- A **summary** in plain words, with a next step.
- **Mastery** from every marked answer, and the **last 4 weeks** against the 4 before.
- **To fix first:** answers given confidently but wrong.
- **Areas for attention**, most important first, each with a suggested next step and **Mark as done**.
- **School results** from your mark book, with the class average and grade, and **Make a progress report**.

Pupils see it too

On their own link, **How I'm doing** shows the same picture, in words for them.

Just your own class? A free dash for teachers

Any teacher can get a free Paddi Dash for their own class at promptpaddijunior.com: add your pupils, and each gets a dash on a private link. A Monday briefing shows who got what confidently wrong, who to see, and who to praise.

PART 3 · PADDI DASH AND FAMILIES

9 Parents and families

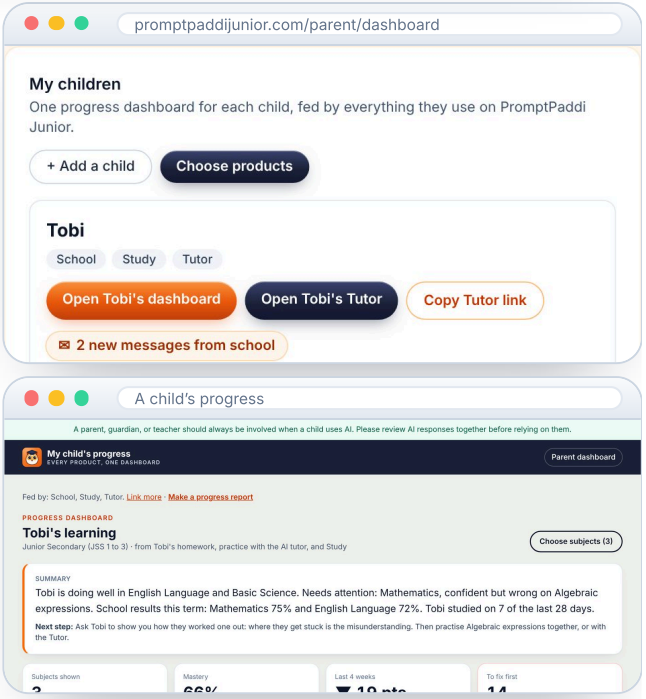

Every child gets a free Paddi Dash. Parents link their child's school record in a minute.

Free Paddi Dash: promptpaddijunior.com

1. **Get Paddi Dash, free**
   At promptpaddijunior.com: no card, two minutes. Already have an account? Sign in at /parent/login. Tap **+ Add a child**.

2. **Link the school record**
   Under the child, tap **Link {name}'s school or Tutor**, paste the link from their link slip, and tap **Link**. It says **"Linked. It now feeds the dashboard."**

3. **Open their dashboard**
   Tap **Open {name}'s dashboard**: **Subjects at a glance**, areas for attention, approved **Progress reports** and **Messages** with the teacher.

The parent dashboard, and a child's progress.

What families can add at home

🦉 **PromptPaddi Tutor · ~~₦~~25,000 a month**
Paddi, the built-in AI tutor, teaches each topic first, then practises it step by step: hints first, never the answer first. /tutor

🎯 **Exam Boost · ~~₦~~6,000 a subject, a month**
Timed papers like the real Common Entrance, BECE, WAEC, NECO, JAMB or IGCSE, and every mistake put right. /exam-boost

🔧 **Maths Clinic, English Lab, Science Lab · from ~~₦~~6,000 a term**
A free gap check, then every gap fixed skill by skill; over 100 virtual science practicals. /maths-clinic

🧭 **My Learning GPS at home · ~~₦~~1,500 a child, a term**
The Daily Pulse and Friday Reflection at home, for a child whose school doesn't use Learning GPS. /learning-gps

Earn 15%: share your school's own link from your dashboard, and your school earns 15% of each family's first order, paid to your bank account. Prices: page 5.

PART 4 · MORE FOR YOUR SCHOOL

10 Paddi Radar for schools

Photograph a school report, or a page of classwork or homework, and Paddi reads it: every subject, every mistake. For admissions checks, and for pupils who need help.

Scan: /for-schools/radar

Admissions

An applicant brings their last reports. Scan each one: every subject in plain words, banded from strong to priority, and the trend from term to term.

Pupils who need help

Build a profile on a pupil who is struggling: their reports, classwork and homework over the term, and where to help.

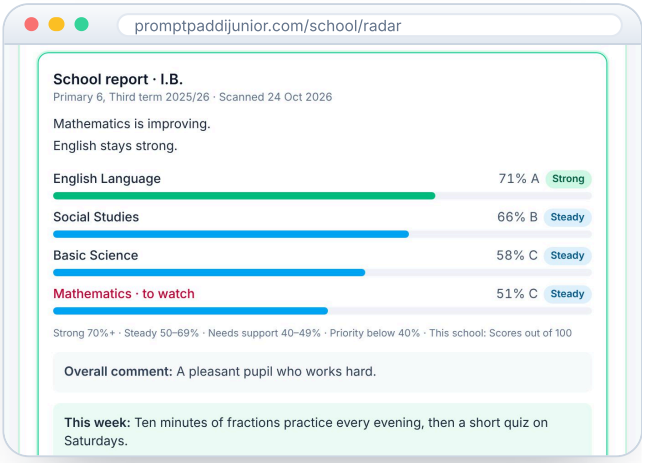

Keep it, or don't

Save each scan to a profile, or don't save it. Unsaved scans are deleted after a day; the photo is never kept.

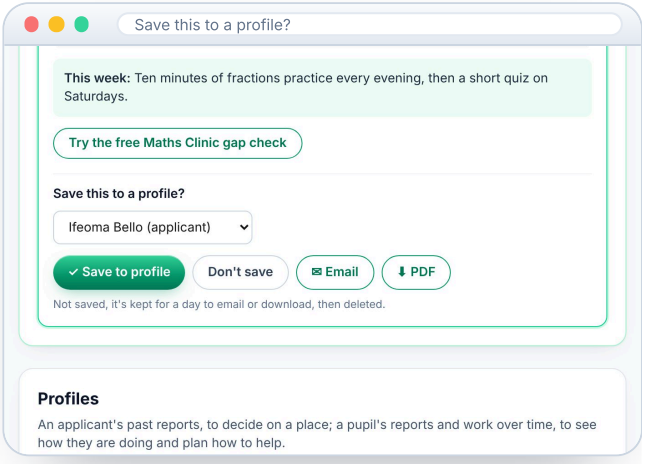

Share it

Email any scan to a colleague or a parent, or download a PDF, saved or not.

1. **Open Paddi Radar**
   On your school dashboard, tap **Open Paddi Radar** (or go to /school/radar).
2. **Choose what you're scanning**
   School report, or **Classwork or homework**.
3. **Take a photo and scan it**
   Tap **Take a photo** (up to three pages), then **Scan it**. In about 20 seconds Paddi shows what it reads, with the learner shown only by initials.
4. **Save it, or don't**
   Under **Save this to a profile?**, choose an applicant or pupil, or **+ A new applicant or pupil** (name, and class if you like), then **✓ Save to profile**. Or tap **Don't save**.
5. **Email it, or keep a PDF**
   ✉ Email sends it to any address (blank: the school's); **⬇ PDF** downloads it.

An applicant's report, read.

Save it to a profile, or don't; email or PDF either way.

Profiles: applicants and pupils

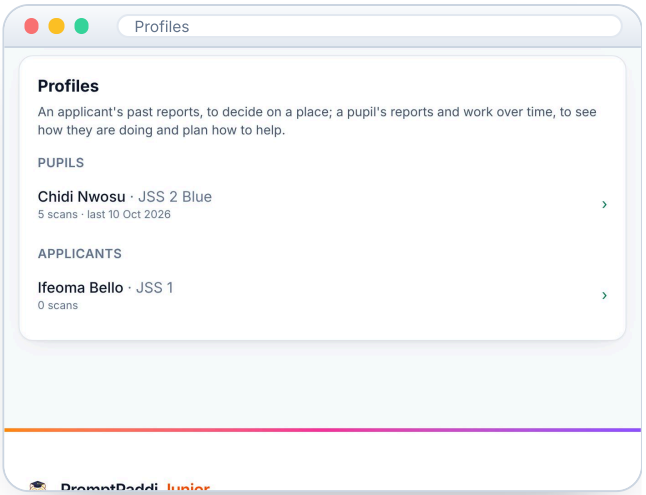

1. **See every profile**
   Under **Profiles** on the Paddi Radar page: **Pupils**, then **Applicants**, each with how many scans and the last one.

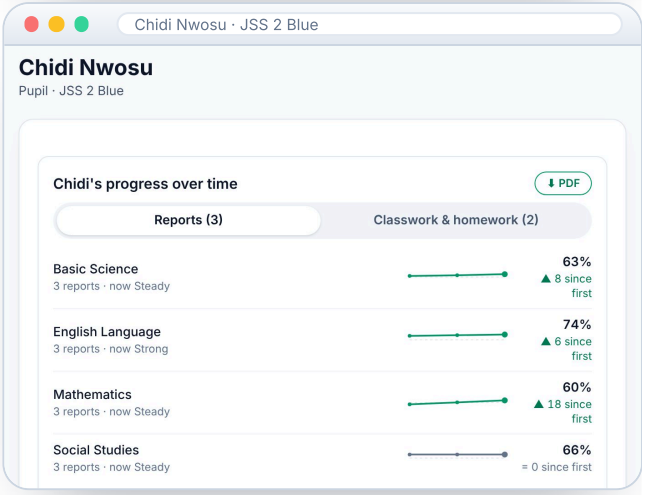

2. **Open a profile**
   Progress over time: each subject from report to report, and for classwork and homework, the share right and the skills that keep coming up. ⬇ PDF downloads it for a meeting or the pupil's file.

3. **Keep your notes**
   For an applicant, what the reports show and your decision. For a pupil, **Notes and plan to help**: what you're seeing, what you'll try, who's doing it, and when to check again. Tap Save.

4. **Admitted?**
   Change an applicant to a pupil, and add their class: their reports stay on the profile.

5. **Delete a profile**
   Delete this profile at the bottom removes it and every scan saved to it.

A pupil's progress over time, subject by subject.

What it costs

₦25,000 a term, for the whole school: 100 scans over four months · £50 / $65. Your school's first scan is free. Nothing renews by itself. Buy it on the Paddi Radar page, or at /for-schools/radar: a school with no account yet gets one when it pays.

Parents use it too

Families have their own Paddi Radar on their free Paddi Dash (₦3,000 a child, a term, first scan free at /radar): tell parents about it when reports go home.

PART 4 · MORE FOR YOUR SCHOOL

11 More, and leading on AI

Fix maths, English and science gaps at a school price, and give your school clear rules for AI.

For schools: /for-schools

Maths Clinic, English Lab and Science Lab: 20% off for schools

🔢 Maths Clinic

A free gap check finds where maths breaks down, then every gap is fixed skill by skill, each mistake explained. Primary 1 to SS 3 and JAMB. /maths-clinic

📻 English Lab

A free gap check finds where English breaks down (sounds, spelling, grammar or reading) and fixes it skill by skill. /english-lab

🧪 Science Lab

Over 100 virtual science practicals, Primary 1 to SS 3, for BECE and WAEC practical skills, every reading checked. /science-practicals/schools

Each one, for a school · each pupil, a term (20% off)

STAGE	FAMILIES PAY	YOUR SCHOOL PAYS
Primary	~~₦6,000~~	**₦4,800**
JSS (with Primary)	~~₦8,000~~	**₦6,400**
SS and JAMB (with JSS and Primary)	~~₦12,000~~	**₦9,600**

Email hello@promptpaddijunior.com and we set it up for your pupils. Paddi, the AI tutor, and Exam Boost are also available at a school price agreed with you.

Leading on AI, in three steps

✅ **1 · The SAGF readiness check**
Free. See where your school stands on AI today.
promptpaddi.com/readiness

→

🎓 **2 · The course for your staff**
The AI Governance Course for Educators: safe, honest use of AI by every teacher.

→

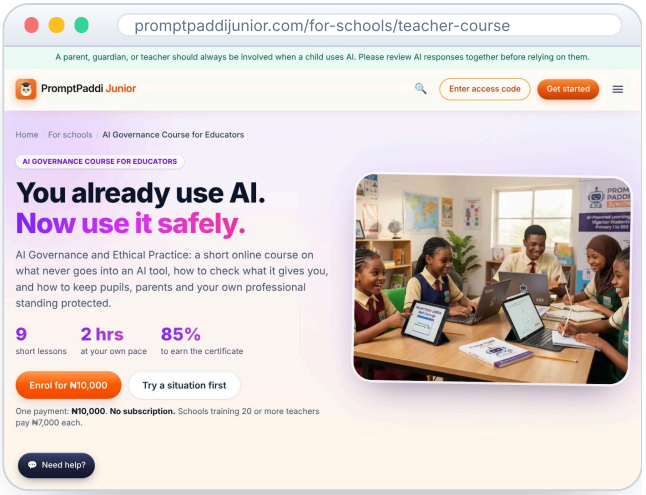

🏛️ **3 · The AI Governance Suite**
Your school's AI policies and forms, ready to adopt.

🎓 AI Governance Course for Educators

Nine short lessons, about two hours, at each teacher's own pace: what never goes into an AI tool, how to check what it gives you, and how to keep pupils, parents and your own standing protected. Score 85% to earn a certificate with a QR code anyone can check. Try a sample lesson free.

Teachers also get the Staff Code of Ethics card, the AI Incident / Concern Reporting Form and the AI Governance Glossary.

₦10,000 each, one payment (£15 / $19). **Schools with 20 or more teachers: ₦7,000 each** (30% off).

The AI Governance Course for Educators.

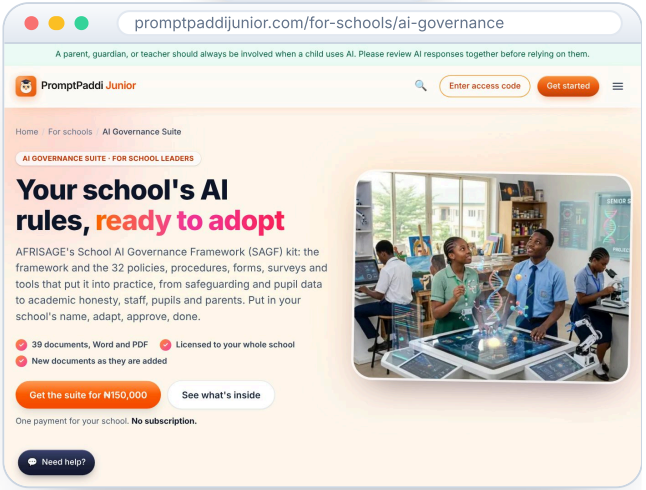

The course: /for-schools/teacher-course

🏛️ AI Governance Suite

AFRISAGE's School AI Governance Framework (SAGF) kit and the course templates: 39 documents (policies, procedures, forms and tools), each as an editable Word file and a print-ready PDF. Put in your school's name, adapt, approve. Licensed to your whole school, with new documents at no extra cost.

By Dr Timi Hyacinth and AFRISAGE, aligned to ISO 21001, the Nigeria Data Protection Act 2023 and UNESCO's Recommendation on the Ethics of AI.

₦150,000, paid once (£225 / $285). 20% off for a school that bought the course for a group of teachers; 50% off for 50 or more teachers.

The AI Governance Suite.

The suite: /for-schools/ai-governance

GOOD TO KNOW

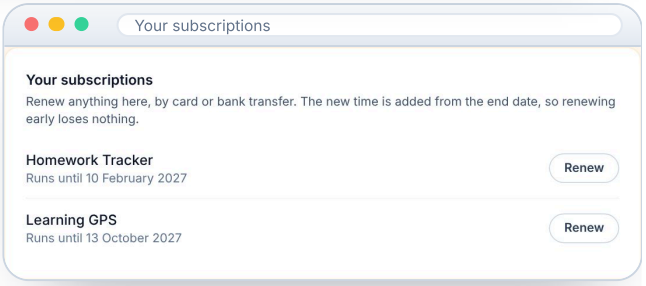

12 Renewing, safety and help

Nothing renews by itself, and nothing is lost when a term ends.

Contact us: /contact

Renewing each term

- Two weeks before Homework Tracker or Learning GPS ends, we email you: **"... ends on {date}: renew in a minute"**, with a **Renew** button. It opens without signing in.
- Or, on your dashboard, tap **Renew** under **Your subscriptions**.
- Choose **How many terms?**: 1, 2 or 3. Renewing early loses nothing: the new terms are added from your current end date. You can change your number of places when you renew.
- If a term ends, everything recorded is kept for 90 days. Renew within that time to carry on: after it, your pupils' records are erased.

Your subscriptions, with Renew.

Safety and data

🔒 Private links

Each pupil's link is theirs alone. Each class link is for that class's teacher only. Make a new link at once if one is shared.

🤖 AI only where you choose

No AI marks pupils' work in Homework Tracker unless a school adds Paddi, and no AI is used on pupils in Learning GPS. The free AI helper is only for teachers writing questions.

🇳🇬 The law

We follow the Nigeria Data Protection Act 2023, and UNESCO's and the UK DfE's guidance on AI in education. AFRISAGE LTD/GTE is the data controller for schools in Nigeria.

✅ Consent

Your school is responsible for having consent in place, under its own policies, before adding a pupil.

Need help?

Tap **Need help?** at the bottom of any page for the help chat. Email hello@promptpaddijunior.com, or WhatsApp us on +234 705 567 1509. Want us to set up your school and train your teachers? Ask us.

Quick start: your first week

Print this page and tick as you go.

🏫 The proprietor or head

- [ ] Buy Homework Tracker (and Learning GPS) at /schools
- [ ] Set your password from the email
- [ ] Add every pupil to the learner roster, with their class
- [ ] Make each class link and send it to the teacher
- [ ] Upload your logo; choose your grade scale
- [ ] Learning GPS: add your safeguarding lead
- [ ] Print the link slips, and tell parents about their free Paddi Dash

👩🏽‍🏫 Each teacher

- [ ] Bookmark your class link
- [ ] Hand out the link slips; pupils add their page to the home screen
- [ ] Show the class how to answer and say how sure (part 4)
- [ ] Set your first homework (try the free AI helper)
- [ ] Check the results; mark any written answers
- [ ] Learning GPS: read your Monday list each Monday
