

PromptPaddi Junior
promptpaddijunior.com

An AI study tool for young scholars

A simple guide for parents, learners, teachers and schools: how to find the right study prompt for any topic, use it safely with a free AI tool, what each plan includes and costs, and the AI Literacy Course, study guides and Learning GPS that go with it.

66,000+ study prompts

Written to the Nigerian curriculum.

Primary 1 to SS3

Four school stages, 37 subjects.

NERDC, WAEC, Cambridge

BECE, NECO, Checkpoint and IGCSE too.

Free AI is enough

Paste into free ChatGPT, Claude or Gemini.

Free prompts

Three in every subject, always free.

Practice tests

With answers, by subject.

36-week WAEC guides

One week at a time to the exam.

AI Literacy Course

Using AI safely and honestly, by age.

For schools

One shared code, a roster, embed on your site.

Learning GPS

Pupils notice how they learn, every week.

Parent dashboard

Your codes, your child's week.

Help

Tap "Need help?" on any page.

1 • OVERVIEW

What PromptPaddi Junior is

PromptPaddi Junior is a library of ready-made study prompts for learners from Primary 1 to SS3, written around real Nigerian, Cambridge and WAEC topics. Each prompt starts a proper, step-by-step study session when you paste it into an AI tool: the AI teaches the topic, quizzes it, sets practice or catches the mistake that keeps coming back. **You are not buying an AI; you are buying the right thing to say to one.** A free ChatGPT, Claude or Gemini account is enough, with no second subscription.

66,419

study prompts

37

subjects

4

school stages

3

free prompts in every
subject

School stage	Classes and curricula
Lower Primary	Primary 1-3 · Nigerian curriculum (NERDC)
Upper Primary	Primary 4-6 · Nigerian curriculum (NERDC)
Junior Secondary	JSS 1-3 · NERDC and BECE, with Cambridge Lower Secondary (Checkpoint)
Senior Secondary	SS 1-3 · NERDC with WAEC and NECO, and Cambridge IGCSE

Who it is for

Parents

For the homework you cannot help with: read the prompt first, then sit down and help properly, or let your child relearn the topic before attempting it.

Learners

Practice that is yours: catch up quietly, find out what you do not know before a test does, and prepare for exams and WAEC.

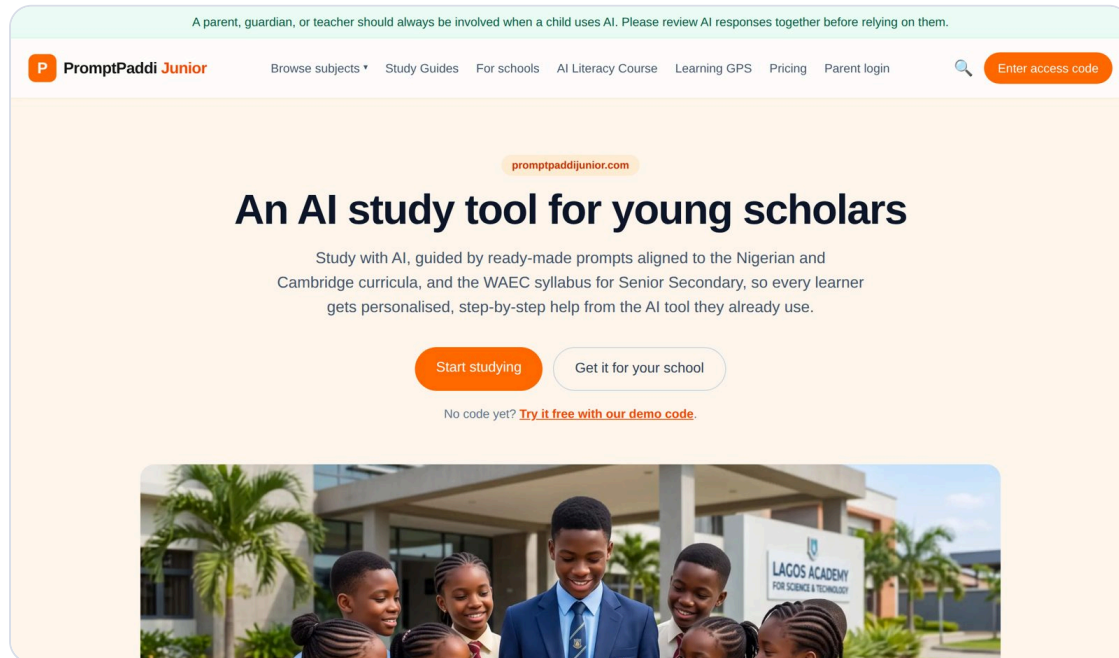

Teachers and lesson teachers

Differentiate from one topic, set revision and continuous assessment, and prepare starters, quizzes and plenaries faster.

Learning away from school

Illness, travel, strikes, homeschooling with a 36-week structure, or families abroad keeping a child on the Nigerian curriculum.

Getting started

The home page: Start studying, or get it for your school.

1. **Try it free, with no sign-up.** Three prompts in every subject are free and always will be: open a subject and choose **Free**. Or tap *Try it free with our demo code (PPJ-DEMO-0001)*: it opens a preview lesson and the free prompts for three days on that device.
2. **Get an access code.** Choose a plan on **Pricing** (section 8) and pay online. Your access code appears as soon as payment is confirmed: save it, and tap **Unlock this device now**. Then create your free parent account from the same page, so you can see the code again from any device. A school gives its learners one shared code instead.
3. **Enter your code** with **Enter access code** at the top right. It unlocks the whole study tool on that device. One learner's code works on two devices, for example a phone and a laptop.
4. **Parents:** sign in with **Parent login** to see your codes, add codes for more children on a Family plan, start My Learning GPS (section 7) and open the AI Kit.

Lost your code?

Sign in with **Parent login** to see it again. With no parent account, go to promptpaddijunior.com/account with the email and payment reference from your Paystack receipt; you can also change your card or cancel there. A learner at a school should ask their teacher.

Studying with a prompt

1. **Find the topic.** **Browse subjects**, choose the school stage, then the subject. Narrow the list by year group (for example SS 2), tap a key word such as *Quadratic Equations*, or search.
2. **Copy the prompt.** Every prompt is written for that topic and that school year: to teach it, quiz it, practise it, or fix a mistake that keeps recurring. Tap **Copy prompt**.
3. **Paste it into a free AI.** Tap **Gemini**, **ChatGPT** or **Claude** under the prompt to open it, and paste. Then study: answer the AI's questions, ask it to explain again, ask for another example, as many times as you need.

IGCSE-style teach me: A speed-time graph that falls to zero Free

PPJ-WMT-01447 [Similar prompts](#) [Report](#)

I am a Year 10 pupil. Explain a speed-time graph that falls to zero in the style of a Cambridge IGCSE revision guide: the method first, then a worked example, then the common trap. Finish by setting me one question and marking it as an examiner would.

Copy prompt

launch and paste in:

[Gemini](#) [ChatGPT](#) [Claude](#)

IGCSE-style teach me: Subtracting one vector from another Free

PPJ-WMT-01491 [Similar prompts](#) [Report](#)

I am a Year 11 pupil. Explain subtracting one vector from another in the style of a Cambridge IGCSE revision guide: the method first, then the worked example, then the common trap. Finish by setting me one question and marking my answer as a Cambridge IGCSE examiner would.

Copy prompt

launch and paste in:

[Gemini](#) [ChatGPT](#) [Claude](#)

Free prompts in Senior Secondary Mathematics: copy, then launch and paste.

- **Similar prompts** shows other prompts on the same idea; **Report** tells us if a prompt needs fixing.
- Every prompt has a reference number (for example PPJ-WMT-01447), so a teacher can set exactly the same prompt for the whole class.
- Use the 🔍 search at the top to find a topic across every subject.

With an adult

Children should use AI tools with a parent, guardian or teacher involved. AI replies can be wrong: check important answers together.

Practice tests and WAEC study guides

Practice tests with answers. Many subjects have practice tests: open the subject and tap the practice tests link at the top, or open *Practice tests* for the whole stage. Do the test first, then check the answers, then take the topics you missed back to their prompts.

36-week WAEC study guides (**Study Guides** in the menu) run from September to the May sitting, one week at a time, for 24 Senior Secondary subjects including Mathematics, English Studies, Biology, Chemistry, Physics, Economics, Government, Literature-in-English and Financial Accounting. These are revision programmes, not courses: each week you answer cold, drill what you got wrong, and have the AI explain why, using prompts the guide names from the library. They suit WAEC candidates in school, those retaking outside school, and homeschooling families.

The AI Literacy Course and guides

Before a child studies with AI, teach them to use it safely. The AI Literacy Course is included with every access code; Module One is free to try.

AI and Me • ages 5-11

10 lessons for lower and upper primary: what AI is, why it is clever but not a person, cool things it can help with, and the golden rules.

AI for Secondary School • ages 11-17

10 lessons: what AI actually is and how it works, why it gets things wrong, your data and your business, and using it honestly for schoolwork.

Every lesson ends with short questions to check understanding, and example prompts to try for real.

- **Teacher and Parent Guides** (promptpaddijunior.com/guides): twelve practical ways each to use PromptPaddi Junior in teaching and at home. Free to download, no code needed.
- **AI Kit:** help for parents and teachers on setting a child up with an AI tool. It opens once an adult signs in, never on a learner's device.

For schools

One subscription unlocks the full study tool for every learner in your school.

One shared access code

No individual passwords for children to lose: one code your school shares with its learners.

Learner roster

A simple record of learners and classes on your school dashboard.

Embed on your website

Copy one snippet into your school website to show the prompt library there.

Add-ons

ASEF Learning GPS (section 7), and the free School AI Readiness Check on PromptPaddi.

1. **Request access** at promptpaddijunior.com/schools: tell us about your school, and tick ASEF Learning GPS if you want it.
2. We reach out on WhatsApp with your price. Your account and codes are set up once payment is confirmed.
3. Sign in with **School login**, share your code with learners, and keep your roster up to date.

ASEF Learning GPS

Pupils spend two minutes a day noticing how they learn, with **My Learning GPS**, and each form teacher sees who needs them before small problems become big ones.

- **Pupils** have a private link each (no password; printable QR slips): a Daily Pulse of under two minutes, a ten-minute Friday Reflection, a GPS Check for each topic or test, and a monthly check-in with a SMART goal.
- **Form teachers** open a Monday list: who asked for help, who is struggling, who had a hard week and who has gone quiet, urgent ones first. Each month they record grades against target, attendance, behaviour and effort; six trigger rules flag who needs a Parent-Student-Teacher meeting within 5 school days.
- **Safeguarding**: when a pupil asks to talk to someone, or rates their week 1, the form teacher and the school's safeguarding contact are emailed straight away. Only the form teacher sees what pupils write.
- **Families** whose school does not use it can run **My Learning GPS at home** from the parent dashboard: the child's own link from age 10, or the five-minute **Weekly Learning Chat** read aloud together for under-10s.

More at promptpaddijunior.com/learning-gps. Start with the Daily Pulse for two weeks so the habit forms, then add the Friday Reflection and, from about week four, the GPS Check.

Pricing

Every access code unlocks the whole curriculum-aligned prompt library, the AI Literacy Course, the practice tests and the study guides, with unlimited use in your own free AI account.

Plan	Covers	Price
Free trial	The three free prompts in every subject, Module One of the AI Literacy Course, and the demo code for three days	Free
Individual: biannual	One learner, billed twice a year	₦35,000 / 6 months
Individual: annual · best value	One learner, billed once a year	₦60,000 / year
Family	One code for up to four learners in the same household, billed once a year	₦120,000 / year
Schools and charities	Every learner in your school, one shared code, roster and embed	Quoted to your school

ASEF Learning GPS

For schools: pupils on your roster	A year
Up to 150 pupils	₦20,000
151 to 400 pupils	₦35,000
401 to 800 pupils	₦50,000
More than 800 pupils, or a group of schools	Ask for a quote
Launch offer: the first 20 schools, any size up to 800	₦10,000 for the first year
For families: My Learning GPS at home	A year
One child	₦5,000
Up to 4 children	₦10,000

Learning GPS for schools is an add-on to a PromptPaddi Junior school subscription; renewing early adds a year from your end date, and if your roster grows you upgrade for the difference. Families already subscribed get their first term of My Learning GPS free.

- **Paying:** by card, bank or USSD with Paystack, or by bank transfer (email hello@promptpaddijunior.com). All prices are in Nigerian Naira.
- **Recommended by an ambassador?** Buy through their link and you pay less than the listed price automatically.
- **Earn by recommending it:** PaddiPartners earn a fixed commission on family and individual sales from their own link; ambassadors share theirs with the people they recommend. Apply from the links at the foot of any page.

Prices at the time of writing; the current prices are always at promptpaddijunior.com/upgrade and [/learning-gps](https://promptpaddijunior.com/learning-gps).

9 • GOOD PRACTICE

Safety, privacy and help

- **An adult is involved.** A parent, guardian or teacher should always be involved when a child uses AI. Setting a child up with an AI tool is an adult decision; check each AI tool's own age rules.
- **AI can be wrong.** Review answers together, and check important ones with a teacher or a textbook.
- **Keep personal details out.** Children should never type their full name, address, school, phone number or photos into an AI tool.
- **Use it honestly.** AI is for learning, not for doing homework for you: the AI Literacy Course explains why and how.
- **Your data:** PromptPaddi Junior does not run its own AI or connect to one for your child. A learner copies a prompt into their own AI account, so we never see the conversation, and we never send a learner's name or school to any AI provider. See promptpaddijunior.com/data-and-ai and the privacy notice.

Help

Tap **Need help?** at the bottom right of any page to ask the help bot, or email hello@promptpaddijunior.com.
