

PromptPaddi Junior for schools
promptpaddijunior.com/schools

The AI study tool for every learner in your school

A guide for school leaders and administrators: getting your subscription, the school dashboard, sharing your access code, the Parent AI Course code, customising the AI your learners use, the learner roster, putting the prompt library on your website, and ASEF Learning GPS.

One shared code

No passwords for children to lose: one code your learners use to unlock the full library.

Your dashboard

Codes, the learner roster, the AI scripts and your website embed in one place.

Add-on

ASEF Learning GPS: pupils notice how they learn; form teachers see who needs them.

Version 1.0 · October 2026 · © Dr Timi Hyacinth / AFRISAGE LTD/GTE. PromptPaddi Junior and its prompt library are proprietary.

1 • GETTING YOUR SUBSCRIPTION

Getting started

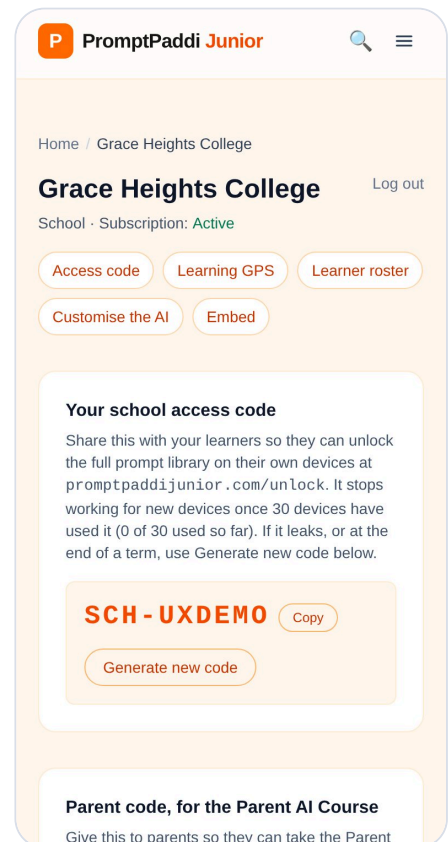

1. **Request access** at promptpaddijunior.com/schools: tell us about your school and how many learners, and tick ASEF Learning GPS if you want it.
2. We reach out on WhatsApp with your price. Your account and codes are set up once payment is confirmed, and you receive your sign-in details.
3. Sign in with **School login** (at the foot of every page). Forgotten your password? Use **Forgot password** on the login page.

Your school dashboard

The links under your school's name jump to each part:

Access code , **Learning GPS** , **Learner roster** , **Customise the AI** and **Embed** .

- **Your access code.** Share it with your learners: they enter it at promptpaddijunior.com/unlock to open the full prompt library, the AI Literacy Course, practice tests and study guides on their own devices. It stops working for new devices once your number of places is used. If it leaks, or at the end of a term, use **Generate new code**. Schools with sections (for example primary and secondary) have a code for each.
- **Parent code.** Give it to parents (in a newsletter or at a parents' evening) so they can take the Parent AI Course free while you subscribe; they register at promptpaddijunior.com/parent/register. It opens the course only, not the prompt library.

The top of the school dashboard.

The AI, the roster and your website

Customise the AI your learners use

Choose a stage (Lower Primary to Senior Secondary) and copy its script into the custom instructions of the AI tool on a staff or parent adult account: ChatGPT (Settings → Personalization), Claude (Settings → Profile) or Gemini (Settings → Saved info). It sets the reading level and the safety rules: what the AI may discuss, what it must refuse, and that it should teach rather than hand over finished homework. Share the scripts with parents too.

The learner roster

Add each learner's name and class. The roster keeps a simple record of learners and classes, counts your places, and is where ASEF Learning GPS takes its classes from. Remove learners who leave.

Put the prompt library on your school website

Under **Embed on your school website**, copy the snippet into any page of your website. It shows your learners' unlocked prompt library right there, for the stages your school subscribes to.

ASEF Learning GPS

Add it from the Learning GPS section of the dashboard: up to 150 pupils ₦20,000 a year, 151 to 400 ₦35,000, 401 to 800 ₦50,000 (launch offer ₦10,000 for the first year, for the first 20 schools). It has its own user guide, and its own website widget.

Safety and help

- A teacher or parent should always be involved when a child uses AI. Setting a child up with an AI tool is an adult decision.
- PromptPaddi Junior does not run its own AI: learners copy prompts into their own AI account, so we never see their conversations.

Learner roster

Learner name Class (e.g. JSS2)

Add learner

6 / 30 seats used

Ada Obi - JSS 2A	Remove
Bayo Ade - JSS 2A	Remove
Chi Eze - JSS 2A	Remove
Dayo Bello - JSS 2A	Remove
Efe Oko - JSS 2A	Remove
Funmi Lawal - JSS 2A	Remove

Embed on your school website

```
