PADDI DASH · FREE FOR EVERY FAMILY

One free dashboard for everything your child learns

See your child's maths gaps, homework and progress in one place. Then switch on only what they need: a tutor, exam practice, maths and English help.

Free · No card · Two minutes

Get my free dash →

Try the sample first →

Inside: how Paddi Dash works, the apps you can add to it and what each costs, and answers to the questions parents ask.

HOW IT WORKS

Like the cockpit of a plane: every part shows how your child is flying

Paddi Dash shows your child's learning in one place, and lights up when something needs you. Each app you add switches on its part of the dash.

1

Get it free

Give your email and we send you a link to set your password. Two minutes, no card.

2

Add your children

A dash for each child, with no email or password for them: a private link for two devices, which installs on the home screen like an app.

3

Switch on what they need

Every part has a free sample to try first. Buy only the apps your child needs, and nothing renews by itself.

It grows with your child

A five-year-old gets bright colours and simple words. An SS student gets the numbers.

- Stars this week, and the days they learnt
- Warning lights, like "2 gaps to fix"
- Today's first step, one tap away
- Every app's progress in one place

Try the sample dash →

Ready? It takes two minutes.

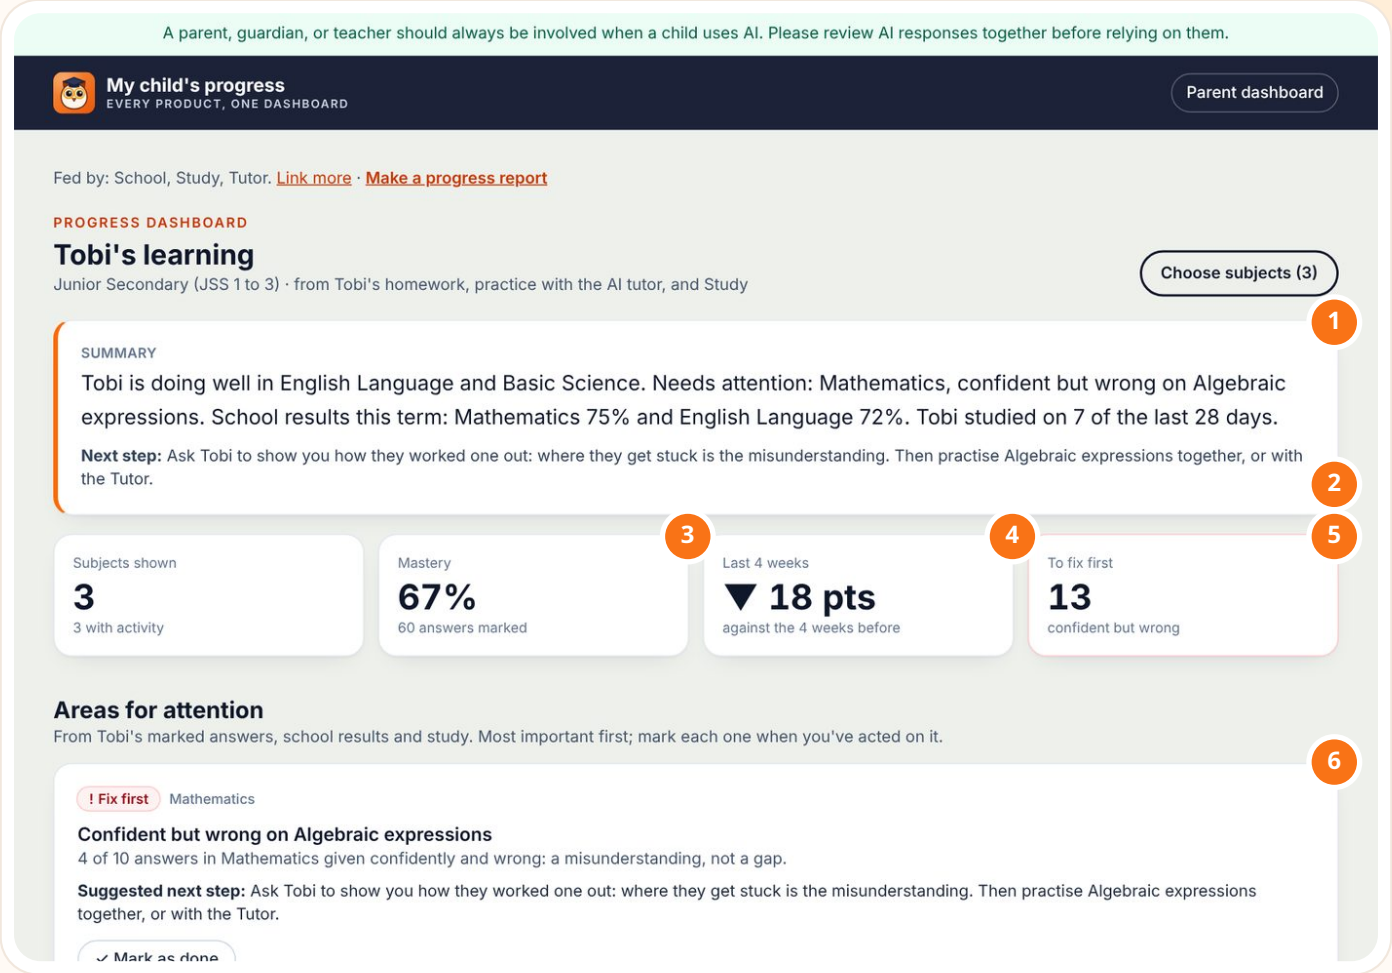

Free. No card.

Get my free dash →

FOR PARENTS · SEE

See exactly how your child is doing

Every app your child uses feeds one progress dashboard, with their school results beside them. This is Tobi's, a sample JSS 2 learner, as his parents see it.

1. A summary in plain words: what is going well, what needs attention, and the school's results this term
2. A next step for you, in one sentence
3. Mastery: how much your child has right, from every marked answer (here 67% of 60)
4. The last four weeks against the four before: up or down, in points
5. To fix first: answers given confidently but wrong, the misunderstandings that matter most
6. Areas for attention, most important first (next page)

FOR PARENTS · TRACK

Track every subject, and every school result

Subjects at a glance

Most in need first. Tap a subject for the detail.

Mathematics	! Needs help 1	64% 2	▼ 18 pts 3	50 answers · studied 4 days · yesterday · 3 to act on 4 ▾
Basic Science	✓ Secure 5	80%	not enough yet	5 answers · studied 2 days · 9 days ago ▾
				5 answers

1. Needs help: the subjects to watch, at the top
2. Mastery in each subject
3. The change over four weeks
4. How much they studied, when, and how many things to act on
5. Secure: the subjects going well

School results

JSS 2 Blue · from the school's mark books, kept apart from practice. Pass mark 50%.

English Language

1 72% B2

So far (CA only until the exam is in) · class average 68.5% · Second quarter of the class

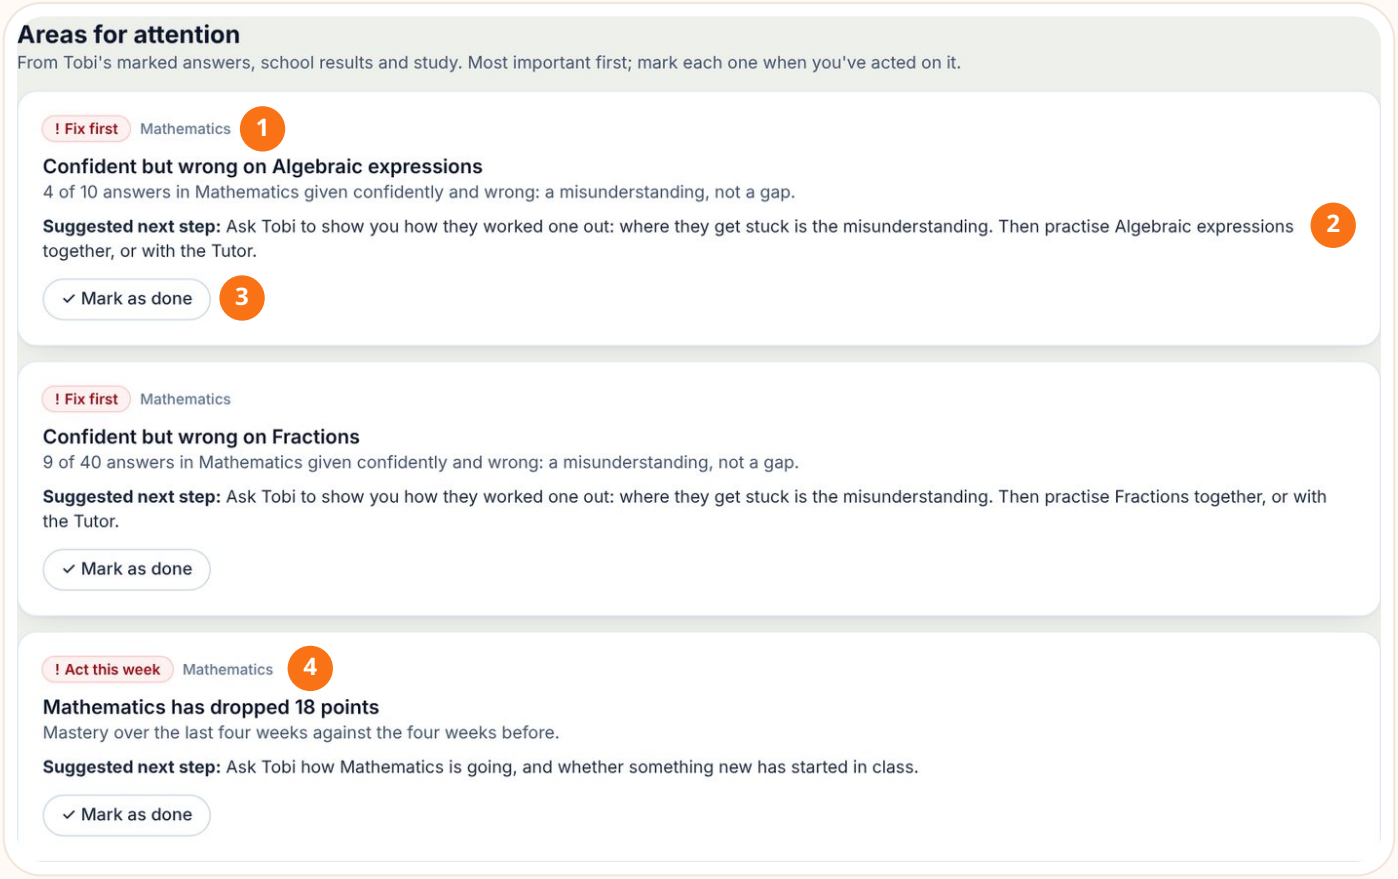

Assessment	Tobi 3	Class
CAT 1 · Comprehension	75%	68.1%
Classwork 1 · Nouns and noun phrases	70%	67.5%

6. The term's mark so far and its grade, from the school's own mark book
7. Each test and piece of classwork on a chart, against the pass mark
8. Your child beside the class average, test by test

FOR PARENTS · ACT

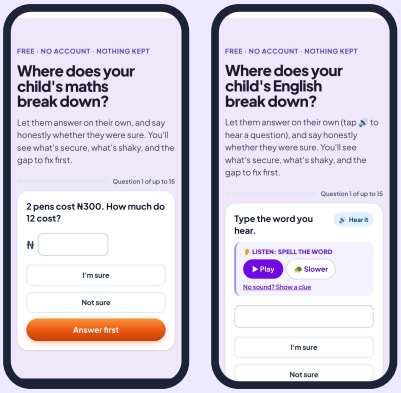

Find the weak spots, and decide what happens next

1. Fix first: the most important weakness, in the topic it is in
2. A suggested next step for you
3. Mark as done when you have acted on it
4. Act this week: a subject that has dropped

You are in control

- Choose the subjects that show on the dashboard
- Switch on Maths Clinic or English Lab: a gap check finds where it goes wrong, then each gap is fixed skill by skill, and you see every skill mastered
- Practise together, or with Paddi, the AI tutor
- Make a progress report, and message the form teacher when the school uses PromptPaddi Junior

FOR CHILDREN

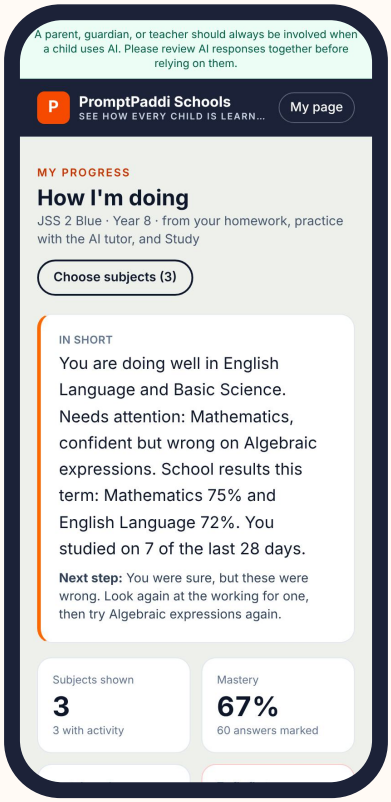

Children see their own progress, and want to fill it

Each child opens their own dash from a private link, on two devices, with no email or password. They see the same learning as their parents, in their own words.

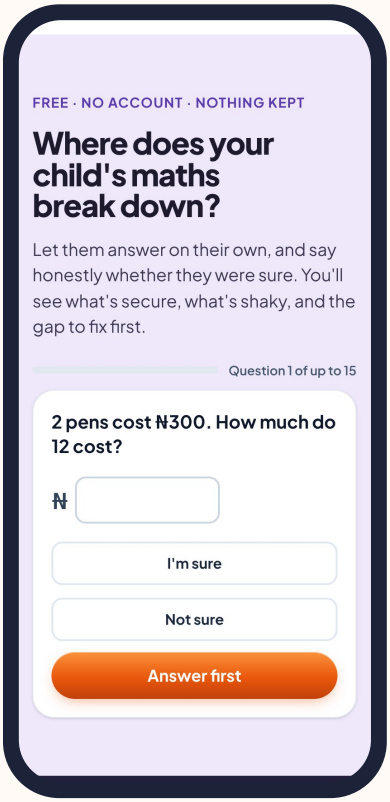

Stars and days

Stars this week against a target, the days they learnt, and a trophy cabinet of every star.

How I'm doing

Which subjects are secure and which need help, and the next thing to try.

Find the gap

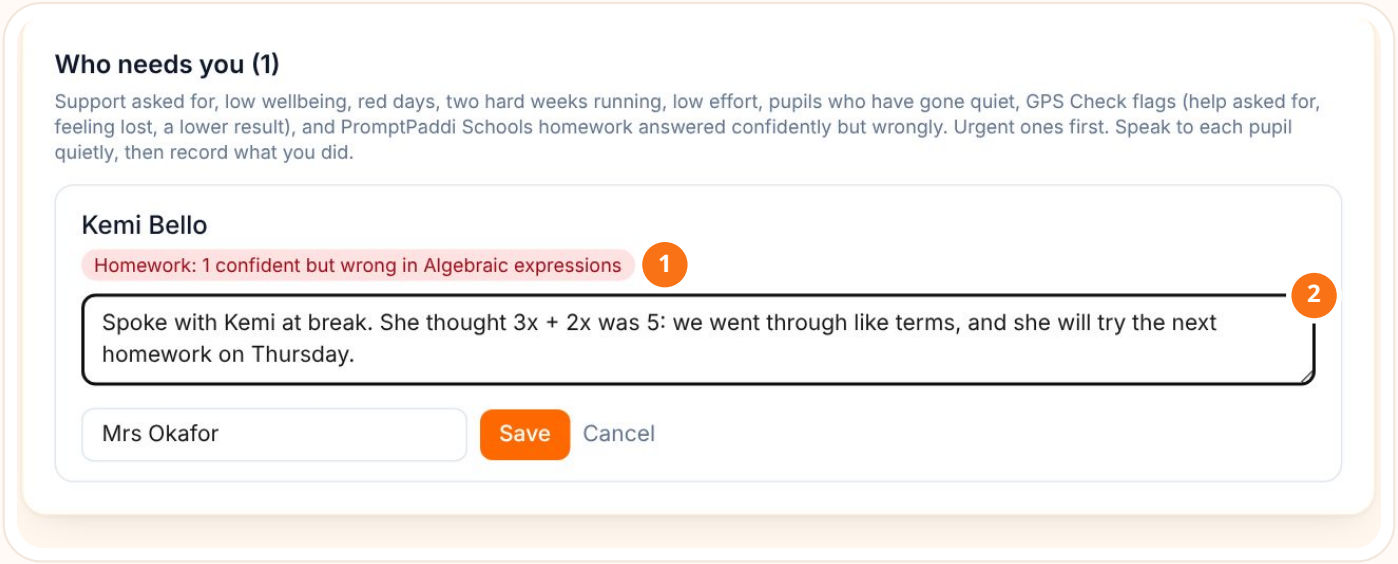

The Maths and English gap checks show exactly where things go wrong, then fix it skill by skill.

Install it like an app

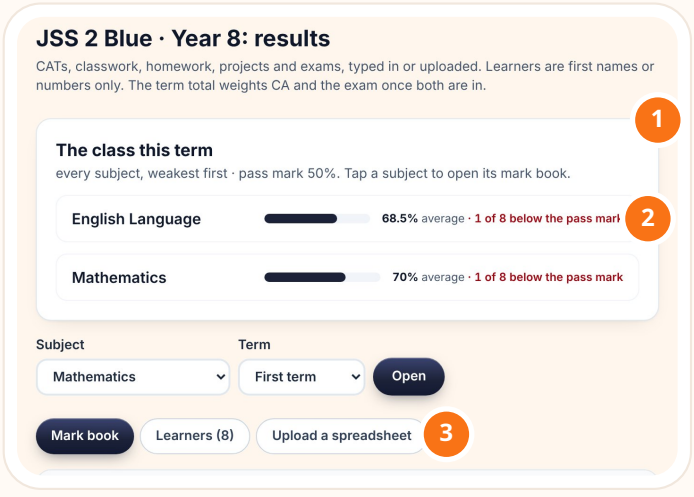

On your child's phone or tablet, open their link and choose "Add to Home Screen" (on an iPhone or iPad: the Share button, then Add to Home Screen). Their dash then opens like an app, with their name on it, and you can do the same for yours.

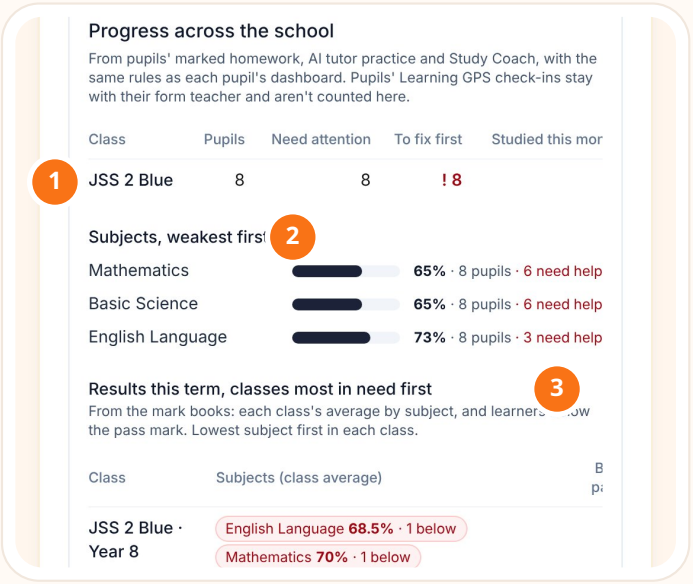

FOR TEACHERS AND SCHOOLS

Teachers see their class; leaders see the whole school

1. Who needs you: each learner flagged, urgent first, with the reason
2. The teacher's note of what they did, kept on the record

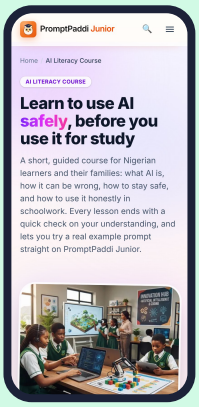

3. The class this term, every subject, weakest first
4. How many are below the pass mark
5. The mark book: tests, classwork and exams
6. Every class, and how many need attention
7. The school's subjects, weakest first
8. Each class's results, most in need first

ADD APPS TO YOUR DASH

Switch on only what your child needs

Each app is a part of the dash, with a free sample to try first. They are in order of price, from free to the Tutor, and nothing renews by itself.

SEATBELT

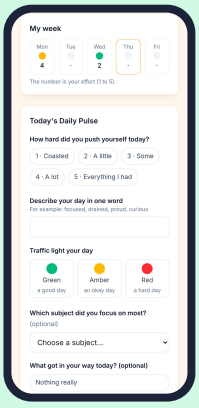

AI course

How AI works, and how to use it safely and honestly in schoolwork.

- Short lessons, each with a quick check
- Module 1 is free
- The full course comes with any product

Module 1 free; the full course comes with any product

Try it free →

GROUND CONTROL

Learning GPS

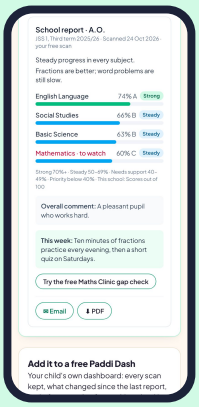

Two minutes a day shows you where your child is in each subject, and how they feel.

- A Daily Pulse: their effort, one word for their day, a traffic light
- See a dip early, in any subject
- Built on Dr Timi Hyacinth's ASEF (Accountability and School Excellence Framework)

₦1,500 a child, a term

Try it free → Switch it on →

MORE APPS FOR YOUR DASH

RADAR

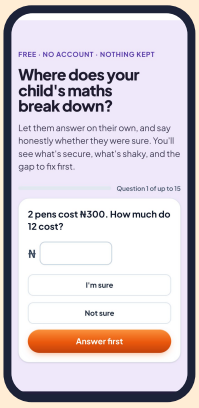

Paddi Radar

Photograph a school report, or a page of classwork or homework: Paddi shows what it means, with every mistake explained.

- Your first scan is free, with no sign-up: the photo is never kept
- Add each scan to the dash to see every subject move from report to report
- Advanced Paddi Radar adds 20 homework helps for your child: hints, never the answer

First scan free, then ₦3,000 a child, a term (12 scans)

Try it free → Switch it on →

ENGINE CHECK

Maths Clinic

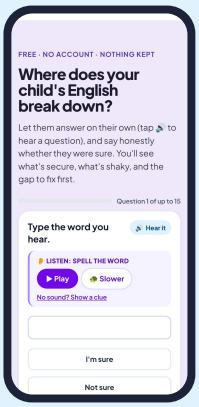

Finds the gaps in your child's maths, then fixes them skill by skill.

- Start with the free gap check: it shows where things go wrong
- Fixes each gap from Primary 1 to SS 3 and JAMB
- Its warning light on the dash shows the gaps still to fix

From ₦6,000 a child, a term

Try it free → Switch it on →

MORE APPS FOR YOUR DASH

RADIO

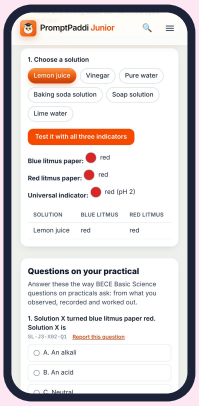

English Lab

Finds where your child's English breaks down: sounds, spelling, grammar or reading.

- A free gap check to start
- Fixes it skill by skill, with every question read aloud if they want
- Listening, reading, speaking and writing

From ₦6,000 a child, a term

Try it free → Switch it on →

LANDING LIGHTS

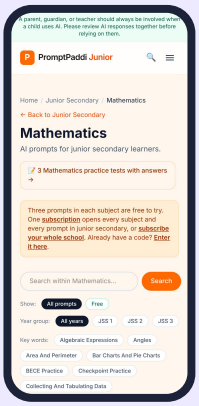

Science Lab

Experiments on screen, with every reading marked at once.

- Practicals for Primary, JSS and SS
- Every reading checked
- One practical is free to try

From ₦6,000 a child, a term

Try it free → Switch it on →

FLIGHT MANUAL

Study Coach

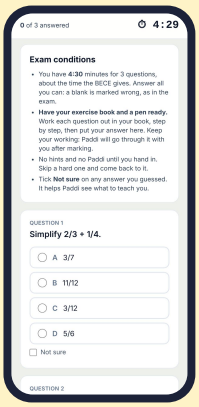

A little study every day, with prompts that teach your child how to learn with AI.

- 70,919 ready-made prompts in 40 subjects, Primary 1 to SS 3
- Includes the AI Literacy course
- A family plan covers up to four children

₦35,000 for 6 months

Try it free → Switch it on →

MORE APPS FOR YOUR DASH

THROTTLE

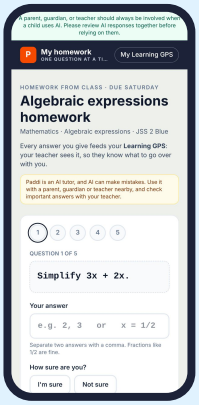

Exam Boost

Timed practice like the real paper, with every mistake explained.

- Choose only the subjects that worry you, up to 9
- BECE, WAEC, NECO, JAMB, IGCSE or any exam you name
- Start with a free practice paper

₦6,000 a subject, a month

Try it free → Switch it on →

PRE-FLIGHT CHECKLIST

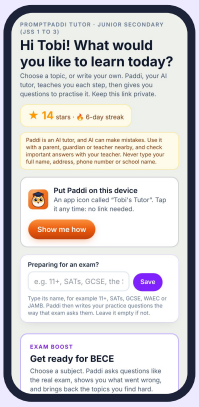

Homework Tracker

Homework set by your child's teacher or tutor, marked the moment they answer.

- You see what is due, what was handed in, and the marks
- Through your child's school, or buy it yourself for their private tutor to use
- Learning at home? The Homeschooler bundle sets homework every week

₦3,000 a learner, a term (at least 10 places)

Try it free → Buy it for your tutor →

CO-PILOT

PromptPaddi Tutor

Paddi, the AI tutor, teaches a step-by-step lesson, then sets questions to practise it.

- Any subject, every day at home
- Hints step by step, never the answer first
- With Exam Boost for the same child, Study Coach is free

₦25,000 a month, for each child

Try it free → Switch it on →

FOR PARENTS

The Parent AI Course: using AI safely and well with your child

A short course for you, from PromptPaddi Junior's own family AI guidance: what AI actually is, age-appropriate boundaries, keeping your child safe, and how to talk about AI and homework. Each lesson ends with a few practice questions.

AGES 5–11

Family AI Guide: Primary

6 short lessons

1. Why This Matters
2. Understanding AI: A Parent's Primer
3. Age-Appropriate Guidelines
4. Your Family AI Agreement
5. Vetting Tools & Keeping Children Safe
6. AI and Homework: Try It Together

AGES 11–18

Family AI Guide: Secondary

7 short lessons

1. Guiding Principles for Teens
2. Understanding AI Beyond the Basics
3. Age-Appropriate Guidelines & Growing Independence
4. Your Family AI Agreement
5. Keeping Teenagers Safe Online
6. AI and Academic Integrity
7. Digital Wellbeing, Monitoring & When Things Go Wrong

Start free today

Your free Paddi Dash includes the first lesson of each guide. The whole course comes with any PromptPaddi Junior product, for any of your children.

FOR TEACHERS AND SCHOOLS

AI Governance Course for Educators

You already use AI. Now use it safely.

A short online course for teachers on using AI safely, ethically and accountably: pupil data and the Nigeria Data Protection Act 2023, safeguarding, academic honesty and transparency with parents. With a verifiable certificate.

9
short lessons

2 hrs
at your own pace

85%
to earn the certificate

What you learn

- AI and generative AI
- AI skills and governance
- Ethics (UNESCO principles)
- Accuracy and accountability
- Pupil data and the Nigeria Data Protection Act 2023
- Safeguarding and reporting
- Academic honesty
- Transparency with parents and pupils
- Putting governance into practice

Every certificate has a QR code anyone can scan to check it.

₦10,000, one payment

The course and your certificate are yours to keep. Nothing renews.

For a school: 20 or more teachers at ₦7,000 each (30% off). Every teacher also gets templates to download: the Staff Code of Ethics card, the AI Incident / Concern Reporting Form and the AI Governance Glossary.

FOR SCHOOL LEADERS

AI Governance Suite: your school's AI rules, ready to adopt

AFRISAGE's School AI Governance Framework (SAGF) kit: the framework and its policies, procedures, forms and tools, with the course templates: 39 documents in all, editable and licensed to your whole school.

Without it

- Weeks of drafting
- Gaps you only find later
- Staff unsure what is allowed

With the suite

- Adapt and approve this term
- Policies that agree, numbered SAGF
- A clear card for every desk

- 39 documents, each as an editable Word file and a print-ready PDF
- Licensed to your whole school, for every member of staff
- New documents on your download page at no extra cost
- By Dr Timi Hyacinth and AFRISAGE, aligned to ISO 21001, the Nigeria Data Protection Act 2023 and the UNESCO Recommendation on the Ethics of AI

₦150,000, paid once

For your whole school, with nothing to renew. Schools that buy the AI Governance Course for Educators for their teachers pay less: 20% off, or 50% off for 50 or more teachers.

QUESTIONS PARENTS ASK

Is Paddi Dash really free?

Yes, with no card. You pay only for an app you choose to switch on.

Does my child need an email address?

No. You add your children, and each gets a private link that works on two devices. Children never give us an email or a password.

What happens at the end of a term or month?

Nothing renews by itself. You choose whether to buy again.

What can a younger child use?

The dash changes with age: bright colours and simple words for little ones, the numbers for older pupils. Maths Clinic and English Lab start at Primary 1.

Running a school?

Homework marked at once, and every learner's wellbeing in view. Parents see it all on their dash.

See it for your school →
