

Adaeze's learning

JSS 3 · preparing for the BECE · from Adaeze's homework, practice with the AI tutor, and Study Coach

SUMMARY

Adaeze is doing well in English Language and Basic Science. Needs attention: Mathematics, confident but wrong on Algebra: simplifying. Adaeze studied on 11 of the last 28 days.

Next step: Ask Adaeze to show you how they worked one out: where they get stuck is the misunderstanding. Then practise Algebra: simplifying together, or with the Tutor.

Areas for attention

From Adaeze's marked answers, school results and study. Most important first; mark each one when you've acted on it.

! Fix first Mathematics

Confident but wrong on Algebra: simplifying

8 of 20 answers in Mathematics given confidently and wrong: a misunderstanding, not a gap.

Suggested next step: Ask Adaeze to show you how they worked one out: where they get stuck is the misunderstanding. Then practise Algebra: simplifying together, or with the Tutor.

Keep an eye on Mathematics

Geometry: angles: not secure after 12 goes

58% right in Mathematics over 12 days of practice.

Suggested next step: Go through one worked example together, then let Adaeze try three on their own.

Actions taken, and whether they worked

Practise simplifying algebra with Paddi: ten minutes, three evenings
